

1. Record Nr.	UNINA9910561298703321
Autore	Andrea Celli
Titolo	Atlas of elbow surgery // Andrea Celli, Luigi Celli
Pubbl/distr/stampa	Cham, Switzerland : , : Springer, , [2022] ©2022
ISBN	3-030-90259-5
Descrizione fisica	1 online resource (461 pages)
Disciplina	617.574059
Soggetti	Elbow - Surgery Colze Chirurgia Atles anatòmics Llibres electrònics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Intro -- Contents -- Part I: Applied Anatomy -- 1: The Elbow Joint -- 1.1 Bone Anatomy -- 1.2 Joint Stability -- 1.2.1 Elbow Stability in Flexion/Extension -- 1.2.2 Forearm Stability in Pronation/Supination -- References -- 2: The Muscle and Tendon System -- 2.1 Lateral Compartment -- 2.2 Medial Compartment -- 2.3 Anterior Compartment -- 2.4 Posterior Compartment -- References -- 3: Cutaneous and Muscular Nerves -- 3.1 The Cutaneous Nerve -- 3.2 Median Nerve -- 3.3 Ulnar Nerve -- 3.4 Radial Nerve -- 3.5 Cubital Fossa -- References -- 4: Upper Arm Blood Supply -- References -- Part II: Extensile Approaches -- 5: Extensile Lateral and Posterolateral Exposures -- 5.1 General Principles -- 5.2 Patient Position -- 5.3 Surgical Landmarks -- 5.4 Nerves at Risk of Injury and Internervous Planes -- 5.5 Kocher Extensile Approach -- 5.5.1 Surgical Technique -- 5.6 Modifications to the Deep Kocher Approach -- 5.6.1 Lateral Collateral Ligament-Sparing Approach -- 5.6.1.1 Surgical Technique -- 5.6.2 Mayo Posterolateral Exposure -- 5.6.2.1 Surgical Technique -- 5.7 Boyd Approach -- 5.7.1 Posterolateral Elbow and Forearm Exposure -- 5.7.1.1 Surgical Technique -- References -- 6: Extensile Medial and Posteromedial

Exposures -- 6.1 General Principles -- 6.1.1 Patient Position -- 6.1.2 Surgical Landmarks -- 6.1.3 Skin Incision -- 6.2 Nerves at Risk of Injury and Internervous Planes -- 6.3 Medial "Over The Top" Approach -- 6.3.1 Surgical Technique -- 6.4 Taylor and Scham Approach -- 6.4.1 Exposure of Posteromedial Elbow and Proximal Ulna -- 6.4.1.1 Surgical Technique -- 6.5 Medial Approach with Medial Epicondyle Osteotomy -- 6.5.1 Molesworth and Campbell Approach -- 6.5.1.1 Surgical Technique -- References -- 7: Extensile Posterior Exposures -- 7.1 General Principles -- 7.2 Surgical Landmarks -- 7.3 Patient Position. 7.4 Nerves at Risk of Injury and Internervous Plane -- 7.5 Skin Incision -- 7.6 Triceps-Splitting Approaches -- 7.6.1 Campbell Posterior Approach -- 7.7 Modifications to the Triceps-Splitting Approaches -- 7.7.1 Shahane and Stanley Approach -- 7.7.2 Gschwend Approach -- 7.7.3 Anconeus-Triceps Lateral Flap Approach -- 7.7.4 Anatomical Basis of the Anconeus-Triceps Lateral Flap Approach -- 7.7.4.1 Surgical Technique -- 7.7.4.2 Postoperative Rehabilitation -- 7.7.5 Lateral Para-Olecranon Approach -- 7.7.5.1 Surgical Technique -- 7.8 Triceps-Reflecting Approaches -- 7.8.1 Mayo-Modified Kocher Extensile Posterolateral Approach -- 7.8.1.1 Surgical Technique -- 7.8.2 Bryan-Morrey Extensile Posteromedial Approach -- 7.9 Triceps-Sparing or "Triceps-On" Approaches -- 7.9.1 Alonso-Llames Bilateraltricipital Approach -- 7.9.2 Morrey Triceps-Sparing Approach -- 7.9.3 Modification of the Morrey Triceps-Sparing Approach -- 7.9.4 Patterson, Bain and Mehta Global Approach -- 7.9.4.1 Patient Position -- 7.9.4.2 Surgical Landmarks -- 7.9.4.3 Surgical Technique -- 7.10 Triceps-Splitting and Tendon-Reflecting Approaches -- 7.10.1 Triceps Turndown -- 7.11 Modifications to the Turndown Approach -- 7.11.1 Surgical Technique -- 7.12 Chevron Olecranon Osteotomy -- 7.13 Modifications to the Chevron Olecranon Osteotomy -- 7.13.1 Combined Olecranon Osteotomy and Anconeus Reflection -- 7.13.2 Osteo-Anconeus Flap Approach -- 7.13.2.1 Surgical Technique -- 7.14 Triceps-Reflecting Anconeus Pedicle -- 7.14.1 (Trap) Approach -- References -- 8: Extensile Anterior Exposures -- 8.1 General Principles -- 8.2 Patient Position -- 8.3 Surgical Landmarks -- 8.4 Nerves at Risk and Internervous Plane -- 8.5 Extensile Anterolateral Approach -- 8.5.1 Henry Approach -- 8.5.2 Extensile Anteromedial Approach -- 8.6 Modification of the Anterior Exposure. 8.6.1 Urbaniak Approach -- References -- Part III: Limited Approaches and Current Surgical Techniques to Selected Lesions -- 9: Posterior Interosseous Nerve Entrapment and Compression Neuropathy -- 9.1 General Principles -- 9.2 Radial Tunnel Syndrome -- 9.3 Clinical Presentation -- 9.4 Pain Elicited by Digital Pressure -- 9.5 Pain Elicited by Provocative Manoeuvres -- 9.6 Posterior Interosseous Nerve Syndrome -- 9.7 Clinical Presentation -- 9.8 Diagnostic Imaging for Radial Tunnel Syndrome and Posterior Interosseous Nerve Palsy -- 9.9 Open Surgical Technique -- 9.10 Brachioradialis-Splitting Approach -- 9.11 Common Extensor-Splitting Approach -- 9.12 Splitting Approach Through the Brachioradialis and the Extensor Carpi Radialis Longus -- 9.13 Splitting Approach Through the Extensor Carpi Radialis Brevis and the Extensor Digitorum Communis -- References -- 10: Lateral Epicondylitis (Tennis Elbow) -- 10.1 General Principles -- 10.2 Clinical Presentation -- 10.3 Diagnostic Tests -- 10.4 Diagnostic Imaging -- 10.5 Surgical Technique -- 10.5.1 Mini-open Surgical Technique (Nirschl Technique) [9, 14] -- References -- 11: Radial Head Fractures -- 11.1 General Principles -- 11.2 Clinical Presentation and Diagnostic Tests -- 11.3 Diagnostic Imaging -- 11.4 Radial Head Fracture Classification -- 11.5 Open Surgical Technique --

11.5.1 Direct Lateral Approach to Radial Head Fractures -- 11.6 Anterolateral Approach -- 11.6.1 Common Extensor-Splitting Approaches -- 11.7 Kaplan Approach (ECRL/B- and EDC-Splitting Approach) -- 11.8 Midaxial Approach (EDC and EDQ-Splitting Approach) -- 11.9 Splitting Approach Through the Extensor Digitorum Communis -- 11.10 Lateral Approach -- 11.10.1 Distal Limited Kocher Approach -- 11.11 Posterior Approach -- 11.11.1 Wrightington Approach -- 11.12 Surgical Technique -- References.

12: Lateral Ulnar Collateral Ligament Lesion -- 12.1 General Principles -- 12.2 Clinical Presentation -- 12.3 Diagnostic Tests -- 12.4 Diagnostic Imaging -- 12.5 Open Surgical Treatment -- 12.6 Distal Limited Kocher Approach -- 12.7 Free Tendon Graft Surgical Technique -- 12.8 The Authors' Original and Preferred Method: Lateral Ulnar Collateral Ligament Reconstruction by Transposition of Local Extensor Fascia Septum -- 12.9 Surgical Technique -- 12.10 Postoperative Care -- References -- 13: Extrinsic Post-traumatic Stiff Elbow: Lateral Limited Approach (Column Approach) -- 13.1 General Principles -- 13.2 Clinical Presentation -- 13.3 Diagnostic Tests -- 13.4 Diagnostic Imaging -- 13.5 Open Surgical Technique -- References -- 14: Medial Collateral Ligament Lesion -- 14.1 General Principles -- 14.2 MCL Anterior Bundle Insufficiency -- 14.3 Clinical Presentation -- 14.4 Diagnostic Tests -- 14.5 Diagnostic Imaging -- 14.6 Surgical Treatment -- 14.7 MCL Anterior Bundle Insufficiency: Flexor-Pronator Muscle-Splitting Approaches -- 14.8 Splitting Approach Between the Flexor Carpi Ulnaris and Palmaris Longus/Flexor Carpi Radialis (Safe Zone) (Fig. 14.12b) -- 14.9 Flexor Carpi Ulnaris-Splitting Approach with Nerve Subcutaneous Transposition (Fig. 14.13a, b) -- 14.10 Surgical Reconstruction of the Anterior Bundle of the Medial Collateral Ligament with a Free Tendon Graft -- 14.11 Figure of Eight Tendon Construct (Jobe Procedure) -- 14.12 The Docking Technique -- 14.13 Hybrid Interference Screw Fixation Technique -- References -- 15: Extrinsic Post-traumatic Stiff Elbow: Limited Medial Approach -- 15.1 General Principles -- 15.2 Clinical Presentation -- 15.3 Diagnostic Tests -- 15.4 Diagnostic Imaging -- 15.5 Surgical Technique -- References -- 16: Medial Epicondylitis -- 16.1 General Principles -- 16.2 Clinical Presentation. 16.3 Diagnostic Tests -- 16.4 Diagnostic Imaging -- 16.5 Surgical Technique -- References -- 17: Ulnar Nerve Entrapment -- 17.1 General Principles -- 17.2 Sites of Ulnar Nerve Compression -- 17.3 Arcade of Struthers -- 17.4 Medial Intermuscular Septum -- 17.5 Anconeus Epitrochlearis Muscle -- 17.6 Cubital Tunnel -- 17.7 Topography and Intraneural Anatomy of the Ulnar Nerve in the Cubital Tunnel and Division of the Proximal Muscular Branches -- 17.8 Deep Flexor-Pronator Aponeurosis -- 17.9 Clinical Presentation -- 17.10 Diagnostic Tests -- 17.11 Diagnostic Imaging -- 17.12 Surgical Techniques -- 17.13 In Situ Decompression -- 17.14 Medial Epicondylectomy -- 17.15 Ulnar Nerve Transposition -- 17.16 Anterior Transposition to a Subcutaneous Bed Superficial to the Flexor-Pronator Mass -- 17.17 Anterior Intramuscular Transposition Within the Flexor-Pronator Mass -- 17.18 Anterior Submuscular Transposition Under the Flexor-Pronator Mass -- References -- 18: Coronoid Fracture in Complex Elbow Instability -- 18.1 General Principles -- 18.2 Anatomical Overview and Morphometric Imaging Measurements -- 18.2.1 Coronoid Imaging Measurements -- 18.2.2 Measurements in Sagittal Plane -- 18.2.2.1 Coronoid Process Height -- 18.2.2.2 Coronoid Facet Height -- 18.2.2.3 Coronoid Tilt and Gradient Angles -- 18.2.2.4 Olecranon-Coronoid Angle -- 18.2.3 Relationship Between Radius and Ulna in the Proximal Radioulnar Joint

-- 18.2.4 Radiocapitellar Line -- 18.2.5 Measurements in the Coronal Plane -- 18.2.5.1 Coronoid Facet Width -- 18.2.5.2 Coronoid Facet Length -- 18.3 Fracture Classification -- 18.4 Clinical Presentation -- 18.5 Diagnostic Imaging -- 18.6 Main Clinical Features -- 18.6.1 Coronoid Fractures in Posterolateral Rotatory Instability (PLRI) -- 18.6.2 Coronoid Fractures in PMRI.  
18.6.3 Coronoid Fractures in Transolecranon Fracture-Dislocation.
