Sommario/riassunto

Tackles the challenge of dismantling the multicultural model without destroying diversity in European society* Have Europeans become hostile to multiculturalism? * When people vote for anti-immigration parties, do they also support their anti-multiculturalism policies? * And are right-wing extremists becoming the storm troopers of the struggle against diversity? In recent years, European political leaders from Angela Merkel to David Cameron have discarded the term 'multiculturalism' and now express scepticism, criticism and even hostility towards multicultural ways of organising their societies. Yet they are unprepared to reverse the diversity existing in their states. These contradictory choices have different political consequences in the countries examined in this book. The future of European liberalism is being played out as multicultural notions of belonging, inclusion, tolerance and the national home are brought into question.

Sommario/riassunto

In her early diaries the art historian Erica Tietze-Conrat describes her eventful life in Vienna in the 1920's, where she had been in touch with all the important art circles of the time.. In 1937 and 1938 her journals give an interesting view of the networks between museums, art dealers, art scholars and artists just before the outbreak of World War II.
