

1. Record Nr.	UNINA9910568251603321
Titolo	Advances in Manufacturing III : Volume 3 - Quality Engineering: Research and Technology Innovations, Industry 4.0 // edited by Adam Hamrol, Marta Grabowska, Damjan Maleti
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2022
ISBN	3-031-00218-0
Edizione	[1st ed. 2022.]
Descrizione fisica	1 online resource (268 pages)
Collana	Lecture Notes in Mechanical Engineering, , 2195-4364
Disciplina	658.5
Soggetti	Industrial Management Cooperating objects (Computer systems) Production management Cyber-Physical Systems Operations Management
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	This book reports on innovative strategies for quality control, risk assessment and sustainable development in production processes, in the era of industry 4.0. Based on peer-reviewed contributions to the 7th International Scientific-Technical Conference MANUFACTURING 2022, held on May 16–19, 2022, in Poznan, Poland, the chapters cover important topics relating to the use of quality management strategies in different stages of the production processes. They report on methods for statistical process control, vision control and inspection of machines, on the application of machine learning methods in quality control and/or risk assessment, on issues relating to digital transformation, and on methods to improve occupational safety. Besides industrial applications, the book also discusses the use quality management tools for educational purposes. By bridging between concepts in quality engineering, ergonomics, digitalization and industry 4.0, this book offers an authoritative source of information for researchers, engineers and managers.
