1. Record Nr. UNINA9910571704203321 Autore ALBERTI MARIA EMANUELA Titolo AKROTHINIA 2 : Contributi di giovani ricercatori agli studi egei e ciprioti Florence,: Firenze University Press, 2018 Pubbl/distr/stampa Descrizione fisica 1 electronic resource (326 p.) Collana Strumenti per la didattica e la ricerca Soggetti Regional & national history Archaeology by period / region Lingua di pubblicazione Italiano **Formato** Materiale a stampa Livello bibliografico Monografia Akrothinia 2 presents itself as a seguel to Akrothinia, which appeared Sommario/riassunto three years ago in this same series, and aims at providing an overview of the research young scholars carried out in the field of Prehistory and Protohistory of the Aegean Sea area. Compared to the previous volume. there is the new inclusion of some essays by young foreign scholars, who have spent periods of study at Italian institutes during their preparation, thus creating an international link from the beginning of their scientific activity. It is now increasingly clear that Aegean studies, mainly focused on the two great Minoan and Mycenaean civilizations, represent a junction point between the general pre-classical Mediterranean world and the subsequent Greek one.
