

1. Record Nr.	UNINA9910571706003321
Autore	Petrucci Alessandra
Titolo	SIS 2017 : Statistics and Data Science: new challenges, new generations Proceedings of the Conference of the Italian Statistical Society, Florence 28-30 June 2017 // Alessandra Petrucci, Rosanna Verde
Pubbl/distr/stampa	Florence : , : Firenze University Press, , 2017
Descrizione fisica	1 online resource (1066 pages)
Collana	Proceedings e report
Disciplina	301
Soggetti	Sociology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	<p>The 2017 SIS Conference aims to highlight the crucial role of the Statistics in Data Science. In this new domain of 'meaning' extracted from the data, the increasing amount of produced and available data in databases, nowadays, has brought new challenges. That involves different fields of statistics, machine learning, information and computer science, optimization, pattern recognition. These afford together a considerable contribute in the analysis of 'Big data', open data, relational and complex data, structured and no-structured. The interest is to collect the contributes which provide from the different domains of Statistics, in the high dimensional data quality validation, sampling extraction, dimensional reduction, pattern selection, data modelling, testing hypotheses and confirming conclusions drawn from the data.</p>
