

1. Record Nr.	UNINA9910571706303321
Autore	Corbetta Lorenzo
Titolo	Hot Topics in Pneumologia Interventistica // Lorenzo Corbetta
Pubbl/distr/stampa	Florence : , : Firenze University Press, , 2017
Descrizione fisica	1 online resource (240 pages)
Collana	Strumenti per la didattica e la ricerca
Disciplina	612.21
Soggetti	Respiratory muscles
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	<p>The Master in Interventional Pulmonology aims at training a versatile pulmonologist, with professional skills in diagnostic and operative bronchoscopy, thoracoscopy and artificial respiratory tracts management with the synergistic contribution of university and hospital teachers. Every year, several specialists from all over the national territory take part to the Master. This work is a collection of all the dissertations presented by the attendants of the eighth edition of the Master in Interventional Pulmonology of the academic year 2014-2015, and acts as evidence and worthy conclusion for a demanding but fruitful year of study and practical activities aimed at certifying professional competence, which can be useful and expendable in the curriculum of a pulmonologist.</p>
