Titolo	Dal Terzo al Primo Mondo : Singapore: un esperimento di successo // Francesca Pannozzo
Pubbl/distr/stampa	Florence : , : Firenze University Press, , 2018
Descrizione fisica	1 online resource (230 pages)
Collana	Premio Cesare Alfieri «Cum Laude»
Disciplina	330.9
Soggetti	Economic history
Lingua di pubblicazione	Italiano
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	<p>This volume offers an analysis of one of the most interesting contemporary political regimes, the Singapore 'case'. This extremely small island is devoid of natural resources and surrounded by two infinitely larger countries with feelings of hostility towards it. It represents an economic and political experiment which has given birth to a substantially authoritarian, hybrid and yet 'happy' regime, and which has started a rapid development process on whose results its legitimacy is based. Today, Singapore emerges in the world economy as the successful global city to which country leaders around the world look with admiration. However, its extraordinary economic successes have been explicitly accompanied by rather invasive and illiberal policies, thus posing a serious challenge to liberal and democratic Western political systems which, at present, are struggling to provide actual solutions for the same fields of intervention.</p>
