

1. Record Nr.	UNINA9910706238003321
Autore	Eckstein Miguel P.
Titolo	Analytic guided-search model of human performance accuracy in target-localization search tasks // Miguel P. Eckstein, Brent R. Beutter, Leland S, Stone
Pubbl/distr/stampa	Moffett Field, California : , : National Aeronautics and Space Administration, Ames Research Center, , April 2000
Descrizione fisica	1 online resource (viii, 155 pages) : illustrations
Collana	NASA/TM ; ; 2000-209594
Soggetti	Accuracy Human performance Mathematical models Position (location) Targets
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"April 2000." "Performing organization: Ames Research Center"--Report documentation page.
Nota di bibliografia	Includes bibliographical references (page 151-154).

2. Record Nr.	UNINA9910576885003321
Autore	Fujita Masayuki
Titolo	Approaches in Enhancing Antioxidant Defense in Plants
Pubbl/distr/stampa	Basel, : MDPI - Multidisciplinary Digital Publishing Institute, 2022
Descrizione fisica	1 online resource (370 p.)
Soggetti	Biology, life sciences Research and information: general
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This Special Issue, "Approaches in Enhancing Antioxidant Defense in Plants" published 13 original research works and a couple of review articles that discuss the various aspects of plant oxidative stress biology and ROS metabolism, as well as the physiological mechanisms and approaches to enhancing antioxidant defense and mitigating oxidative stress. These papers will serve as a foundation for plant oxidative stress tolerance and, in the long term, provide further research directions in the development of crop plants' tolerance to abiotic stress in the era of climate change.
