Descrizione fisica	1 online resource (ix, 138 pages)
Disciplina	979.01
Soggetti	Mogollon culture
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	“For the past twenty years the University of Arizona’s archaeological field school has been conducting research focused on Grasshopper Pueblo, a large, fourteenth-century Western Anasazi site, located below

the Mogollon Rim, on the Fort Apache Reservation, in Arizona. . . . Research questions pursued at Grasshopper involve explicating the founding, growth, and abandonment of the site within the context of three broad areas of causality. These are environmental and climactic change; regional and interregional economics, especially trade; and subsistence change, including agricultural intensification. The papers in this volume . . . are presented as specialized contributions to this work."—Journal of Anthropological Research Contributors: Larry D. Agenbroad Eric J. Arnould Walter H.
