

1. Record Nr.	UNINA9910578698403321
Titolo	Chinese Lexical Semantics : 22nd Workshop, CLSW 2021, Nanjing, China, May 15–16, 2021, Revised Selected Papers, Part I // edited by Minghui Dong, Yanhui Gu, Jia-Fei Hong
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2022
ISBN	3-031-06703-7
Edizione	[1st ed. 2022.]
Descrizione fisica	1 online resource (553 pages)
Collana	Lecture Notes in Artificial Intelligence, , 2945-9141 ; ; 13249
Disciplina	495.10143
Soggetti	Image processing - Digital techniques Computer vision Artificial intelligence Computer engineering Computer networks Machine theory Computer Imaging, Vision, Pattern Recognition and Graphics Artificial Intelligence Computer Engineering and Networks Formal Languages and Automata Theory
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	On the Differences between Dua and Dub -- From Falling to Hitting: Diachronic Change and Synchronic Distribution of Frost Verbs in Chinese -- The Senses of Mandarin Deadjectival Verbs -- A Corpus-Based Study of Factive Verbs and Its Influencing Factors -- The Discrimination of the Synonyms of yuq: A Corpus-Based Study -- A Corpus-Based Semantic Analysis of the Pattern 'b+NP+VP' in Mandarin Chinese -- Cross-categorical Behaviors of Mandarin Physical Contact Verbs: A Frame-based Constructional Analysis of qiod -- The Correspondence Between Semantic Functions and Syntactic Constructions of Guà Verbs -- The Collostruction-Based Definition Model in Language-Specific Chinese-English Learner's Dictionaries: The Case of Chinese Collective Classifier 'B' -- The Collocations of

Chinese Color Words -- The Differences between Jiùshì and Jiùsuàn as Conjunctions and Their Formation Mechanisms -- A Deontic Modal SFP in Chengdu Chinese -- An Analysis of the Grammaticalization, Coercion Mechanisms and Formation Motivation of the New Construction 'XX Zi' from the Cognitive Perspective -- A Study on Lexical Knowledge and Semantic Features of Speech Act Verbs Based on Language Facts -- The Syntax and Semantics of Verbs of Confession -- The Pragmatic Distribution and Semantic Explanation of Evidential Prepositions -- The Discourse Functions of Shell Nouns in Mandarin: A Genre-based Study in Popular and Professional Science Articles -- The Interpersonal and Attitudinal Function of the Modal Particle A in the Middle of the Sentence -- Verb Meaning Representation Based on Structured Semantic Components -- Activation of Alternatives by Mandarin Sentence-initial and Sentence-internal Foci: A Semantic Priming Study -- On the Limitations of Constructional Innovation A Case Study of the 'ni bixu zhidao de NP' -- Formalized Chinese Sentence Pattern Structure and Its Hierarchy Analysis -- On the Semantic Ambiguity of Chinese Causative Resultative V-Vs -- On the Dynamic Semantics of Fuzé and Bùrán in Mandarin Chinese -- Functions of Non-Subject Topics in Mandarin Conversations -- A Comparative Study of Two Motion Verbs Lái and Guòlái -- Morpheme Zú "tribe" in Mandarin Chinese -- Interpretation of Complex Event and the Semantics Structure of General Verbs -- Perfectivity via Locative Non-coincidence: Pre-verbal TAU in the Xiaolongmen Dialect -- The Development Trend and Form-meaning Features of Contemporary Chinese Lexical Patterns -- Automatic Prediction and Linguistic Interpretation of Chinese Directional Complements Based on BERT Model -- Chunk Extraction and Analysis Based on Frame-verbs -- From 'It's Your Funeral' to 'Mouse Tail Juice': A Quantitative Study of the Mishearings in Danmu Videos -- A Textual Entailment Recognition Method Fused with Language Knowledge -- Semantic Similarity of Inverse Morpheme Words Based on Word Embedding -- A Hybrid Model for Chinese Confusable Words Distinguishing in Proofreading -- Translating Chinese Ancient Poetry into Modern Chinese with Transformer -- Disambiguation of Network Informal Language Expressions Based on Construction Grammar -- Themes and Sentiments of Online Comments under COVID-19: A Case Study of Macau -- Multilingual China-related News Identification Framework Based on Multiple Strategies -- Research and Implementation of Buzzword Detection Technology Based on the Dynamic Circulation Corpus -- Human Body Metaphor in News Headlines -- Human Cognitive Constraints on the Separation Frequency and Limit of Separable Words -- A Quantitative Research on the Spatial Images for Among Flowers -- Study on the Order of Double-syllable Double Attributive and Selection Restrictions -- Embodied Grounding of Concreteness/Abstractness: A Sensory-Perceptual Account of Concrete and Abstract Concepts in Mandarin Chinese -- A Diachronic Study on Linguistic Synesthesia in Chinese -- The Relationship between Lexical Richness and the Quality of CSL Learners' Oral Narratives -- Interpreting Accomplishments by Script Knowledge: A Comparison Study between Chinese and French -- Creation and Significance of Database of Dictionary of Cognate Words -- Chinese Predicate Chunk Knowledge Base Construction and Internal Boundary Recognition -- Translational Equivalents for Culture-specific Words in Chinese-English Dictionaries -- Quantitative Analysis of Chinese and English Verb Valencies Based on Probabilistic Valency Pattern Theory -- A Quantitative Approach to the Stylistic Assessment of the Middle Chinese Texts -- Construction and Evaluation of Chinese Word

Segmentation Datasets in Malay Archipelago -- Social Changes Manifested in the Diachronic Changes of Reform-related Chinese Near Synonyms -- Semantic Classification of Adverbial Adjectives Based on Chinese Chunkbank -- Prepositional Frame Extraction and Semantic Classification Based on Chinese ChunkBank -- From Complex Emotion Words to Insomnia and Mental Health: A Corpus-based Analysis of the Online Psychological Consultation Discourse about Insomnia Problems in Chinese -- A Quantitative Study on the Measure Index of Syntactic Complexity in Textbooks for Chinese as a Second Language -- Construction and Quantitative Analysis of Jiangsu Dialect Function Word Knowledgebase -- Construction of Event Annotation Corpus for Political News Texts -- Developing a Syntax and Semantics Annotation Tool for Research on Chinese Vocabulary -- An Overview of the Construction of Near Synonyms Discrimination Resources -- Contemporary Chinese Social Vocative Terms -- The Corpus Construction of Basic Noun Compound Phrase in Literature Domain and Its Comparison with News Domain -- Predicate Annotation for Chinese Intent Detection -- The Development of the Chinese Monosyllabic Motion-Directional Constructions: A Diachronic Constructional Approach -- A Corpus Study of Anaphora in Chinese Conditionals -- Research on the Distribution and Characteristics of Negative Quasi-prefixes in Different Registers -- A Quantitative Study on Mono-Valent Noun and Its Ellipsis -- Construction of Chinese Obstetrics Knowledge Graph Based on the Multiple Sources Data.

Sommario/riassunto

The two-volume proceedings, LNCS 13249 and 13250, constitutes the thoroughly refereed post-workshop proceedings of the 22nd Chinese Lexical Semantics Workshop, CLSW 2021, held in Nanjing, China in May 2021. The 68 full papers and 4 short papers were carefully reviewed and selected from 261 submissions. They are organized in the following topical sections: Lexical Semantics and General Linguistics; Natural Language Processing and Language Computing; Cognitive Science and Experimental Studies; Lexical Resources and Corpus Linguistics.
