ASEAN Maritime Security and Power Interaction in the Region -- Chapter 8. Maritime Security within the Framework of the Global Maritime Fulcrum.
Sommario/riassunto	This book covers various strategic issues around maritime security in terms of how Indonesia has sought to implement its Global Maritime Fulcrum (GMF) vision, evaluating its regional impact within ASEAN. The

Global Maritime Fulcrum' vision was declared by President Joko Widodo to refocus Indonesia's development paradigm to prioritize its maritime aspect in the Indo-Pacific. Divided across five pillars, namely: maritime culture, maritime resource management, maritime infrastructure and connectivity development, maritime diplomacy and maritime defense, the book presents that the implementation of this vision will doubtless have a significant regional impact, particularly in setting regional maritime agendas. In promoting an understanding of the challenges presented in implementing the Global Maritime Fulcrum and unpacking its multifaceted impact in the region, this book delves into Indonesia's maritime vision, the existing maritime arrangements within ASEAN, and Indonesia's interests in terms of its political economy relating to the maritime sector, strategic security issues, maritime diplomacy, and related regional power dynamics. Translated from Bahasa Indonesia into English, the book is relevant to scholars and policymakers in maritime studies, international relations, and regional studies relating to politics and power dynamics in Indonesia, specifically, and ASEAN more broadly.
