

1. Record Nr.	UNISALENT0991001377189707536
Autore	Ikeda, Nobuyuki
Titolo	Stochastic differential equations and diffusion processes / by Nobuyuki Ikeda and Shinzo Watanabe
Pubbl/distr/stampa	Amsterdam : Kodansha, 1981
ISBN	0444861726
Descrizione fisica	xiv, 464 p. ; 23 cm.
Collana	North-Holland mathematical library ; 24
Classificazione	AMS 35R60 AMS 58G32 AMS 60J60 AMS 65H15 (1985)
Altri autori (Persone)	Watanabe, Shinzoauthor
Disciplina	519.2
Soggetti	Diffusion processes Stochastic partial differential equations
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliography: p. 453-460. Includes index

2. Record Nr.	UNINA9910580205903321
Autore	Dolgikh Grigory Ivanovich
Titolo	Sea Level Fluctuations
Pubbl/distr/stampa	Basel, : MDPI - Multidisciplinary Digital Publishing Institute, 2022
Descrizione fisica	1 online resource (222 p.)
Soggetti	History of engineering & technology Technology: general issues
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	<p>This thematic issue presents 11 scientific articles that are extremely useful for understanding the processes and phenomena of the interacting geospheres of the Earth. These processes have an important impact on the biosphere and many human activities. The results of scientific research presented in this book are fully united by the common theme "investigation of the fundamental foundations of the emergence, development, transformation, and interaction of hydroacoustic, hydrophysical and geophysical fields in the World Ocean." The book is recommended to a wide range of readers, as well as to specialists in the field of hydroacoustics, oceanology, and geophysics.</p>
