Autore   Gelenbe Erol <1945->

Titolo   Security in computer and information sciences : second International
                      Symposium, EuroCybersec 2021, Nice, France, October 25-26, 2021,
                      revised selected papers / / editors, Erol Gelenbe [et al.]

Pubbl/distr/stampa   Cham, : Springer Nature, 2022
                      Cham : , : Springer International Publishing AG, , 2022
                      ©2022

ISBN   3-031-09357-7

Descrizione fisica   1 online resource (145 pages)

Collana   Communications in computer and information science ; v.1596

Altri autori (Persone)   JankovicMarija
                         KehagiasDionysios
                         MartonAnna
                         VilmosAndras

Soggetti   Computer networks - Security measures
                      Computer security
                      Seguretat informàtica
                      Xarxes d'ordinadors
                      Congressos
                      Llibres electrònics

Lingua di pubblicazione   Inglese

Formato   Materiale a stampa

Livello bibliografico   Monografia

Nota di contenuto   AI and Quality of Service Driven Attack Detection, Mitigation and Energy
                      Optimization: A Review of Some EU Project Results Application of a
                      Human-Centric Approach in Security by Design for IoT Architecture
                      Development An Empirical Evaluation of the Usefulness of Word
                      Embedding Techniques in Deep Learning-based Vulnerability Prediction
                      Correlation-based Anomaly Detection for the CAN Bus Botnet Attack
                      Detection with Incremental Online Learning Optimizing Energy Usage
                      for an Electric Drone T-RAID: TEE-based Remote Attestation for IoT
                      Devices Secure Authentication for everyone! Enabling 2nd-factor
                      Authentication under Real-world constraints Energy, QoS and Security
                      Aware Services at the Edge Mitigating the Massive Access Problem in

the IoT

Sommario/riassunto	This open access book constitutes the thoroughly refereed proceedings of the Second International Symposium on Computer and Information Sciences, EuroCybersec 2021, held in Nice, France, in October 2021. The 9 papers presented together with 1 invited paper were carefully reviewed and selected from 21 submissions. The papers focus on topics of security of distributed interconnected systems, software systems, Internet of Things, health informatics systems, energy systems, digital cities, digital economy, mobile networks, and the underlying physical and network infrastructures. This is an open access book.
