

1. Record Nr.	UNINA9910583053603321
Titolo	Diagnosis and management of adult congenital heart disease // [edited by] Michael A. Gatzoulis, MD, PhD, FACC, FESC, Professor of Cardiology and Consultant Cardiologist, Adult Congenital Heart Centre and Centre for Pulmonary Hypertension, Royal Brompton Hospital, London, United Kingdom, Gary D. Webb, MD, CM, FACC, Emeritus Professor of Pediatrics and Internal Medicine, Consulting Cardiologist, The Adult Congenital Heart Program, Cincinnati Children's Hospital, Cincinnati, Ohio, Piers E.F. Daubeney, DM, FRCP, CRCPCH, Consultant Pediatric and Fetal Cardiologist, Royal Brompton Hospital, London, United Kingdom
Pubbl/distr/stampa	Philadelphia : , : Elsevier, [2018] ©2018
Edizione	[Third edition]
Descrizione fisica	1 online resource (xii, 677 pages) : illustrations (chiefly color)
Disciplina	616.1/2043
Soggetti	Congenital heart disease Heart Defects, Congenital - diagnosis Heart Defects, Congenital - therapy Adult
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Revised edition of: Diagnosis and management of adult congenital heart disease / [edited by] Michael Gatzoulis, Gary D. Webb, Piers E.F. Daubeney. 2nd ed. ©2011.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	PART 1 -- GENERAL PRINCIPLES -- 1 Adults with congenital heart disease : a growing population -- 2 Grown-up congenital heart or adult congenital heart disease : historical perspectives -- 3 Cardiac morphology and nomenclature -- 4 Adults with congenital heart disease : a genetic perspective -- 5 Clinical assessment -- 6 Echocardiography -- 7 Heart failure, exercise intolerance and physical training -- 8 Cardiovascular magnetic resonance -- 9 Cardiac computed tomography -- 10 Cardiac catheterization in adult congenital heart disease -- 11 Late repair and reoperations in adult congenital heart disease -- 12 Venous shunts and the fontan circulation in adult congenital heart disease -- 13 Late complications

following the fontan operation -- 14 Heart and lung transportation in adult congenital heart disease -- 15 Noncardiac surgery in adult congenital heart disease -- 16 Critical care -- 17 Arrhythmias in adult congenital heart disease -- 18 Invasive electrophysiology -- 19 Pacemakers and internal cardioverter defibrillators in adult congenital heart disease -- 20 Infective endocarditis -- 21 Transition of care from pediatrics -- 22 Pregnancy and contraception -- 23 Obstetric analgesia and anesthesia -- 24 Quality of life in patients with pulmonary hypertension and nursing in adult congenital heart disease -- 25 Psychosocial issues in adult congenital heart disease -- 26 Supportive and palliative care for adults with adult congenital heart disease -- 27 Anesthesia in adult congenital heart disease, inclusion anesthesia or Noncardiac surgery -- 28 Insurability of adults with congenital heart disease -- PART II SEPTAL DEFECTS -- 29 Arterial septal defect (interatrial communication) -- 30 Ventricular septal defect -- 31 Atrioventricular septal defects -- PART III DISEASES OF THE MITRAL VALVE -- 32 Cor triatriatum and congenital mitral stenosis -- 3 Mitral valve prolapse, mitral regurgitation -- 34 Partial anomalous pulmonary venous connections and the scimitar syndrome -- PART IV DISEASES OF THE LEFT VENTRICULAR OUTFLOW TRACT -- 35 Valvular aortic stenosis -- 36 Subvalvular and supra-valvular aortic stenosis -- 37 Aortic regurgitation -- 38 Sinus of Valsalva aneurysms -- PART V DISEASES OF THE AORTA -- 39 Patent ductus arteriosus and aortopulmonary window -- 40 Aortic coarctation and interrupted aortic arch -- 41 Truncus arteriosus -- 42 Vascular rings, pulmonary slings and other vascular abnormalities -- PART VI DISEASES OF THE TRICUSPID VALVE -- 43 Ebstein anomaly -- 43 Tricuspid regurgitation and stenosis -- PART VII DISEASES OF THE RIGHT VENTRICULAR OUTFLOW TRACT -- 45 Pulmonary stenosis -- 46 Double-chambered right ventricle -- PART VIII CYANOTIC CONDITIONS -- 47 Tetralogy of fallot -- 48 Pulmonary atresia with ventricular septal defect -- 49 Absent pulmonary valve syndrome -- 50 Pulmonary atresia with intact ventricular septum -- 51 Transposition of the great arteries -- 52 Eisenmenger syndrome -- 53 Congenitally corrected transposition of the great arteries -- 54 Double-outlet right ventricle -- PART IX UNIVENTRICULAR HEART -- 55 Double-inlet ventricle -- 56 Atrioventricular valve atresia -- 57 Heterotaxy and isomerism of the atrial appendages -- PART X CORONARY ARTERY ABNORMALITIES -- 58 Congenital anomalies of the coronary arteries -- 59 Kawasaki disease -- PART XI OTHER LESIONS -- 60 Myocarditis and dilated cardiomyopathy -- 61 Hypertrophic cardiomyopathy -- 62 Constrictive pericarditis and restrictive cardiomyopathy -- 63 Arrhythmogenic cardiomyopathy -- 64 Noncompacted myocardium -- 65 Rheumatic fever -- 66 Cardiac tumors -- 67 Marfan syndrome : a cardiovascular perspective -- 68 Idiopathic pulmonary hypertension -- Selected terms used in adult congenital heart disease

Sommario/riassunto

"Designed to meet the needs of clinicians working with adults with congenital heart disease, *Diagnosis and Management of Adult Congenital Heart Disease*, by Drs. Michael A. Gatzoulis, Gary D. Webb, and Piers E. F. Daubeney, offers essential guidance on the anatomical issues, clinical presentation, diagnosis, and treatment options available to practitioners today. This latest edition features completely updated content, including new information for nurses and nurse practitioners who, now more than ever, are playing an important role in the care of adults with CHD. You'll also access four new chapters, illustrated congenital defects, coverage of long-term outcomes, and much more" --Publisher's description.
