Sommario/riassunto

The essays collected in this volume constitute a breakthrough in an understanding of the life and works of Kerouac. Fellow Beats, biographers, critics, poets and scholars write about their views of a man who epitomizes both the American Dream and the French-Canadian experience on this continent. Eight essays in English, eleven in French.

Pharmacologic approach to gastrointestinal disease -- section 6. Diseases of the gastrointestinal tract.
Sommario/riassunto	A comprehensive reference standard for the discipline, Canine and Feline Gastroenterology covers the biology, pathobiology, and diagnosis and treatment of diseases of the gastrointestinal, pancreatic, and hepatobiliary systems. An international team of experts, including 85 authors from 17 different countries, led by Robert Washabau and Michael Day, covers everything from minor problems such as adverse food reactions to debilitating inflammatory, infectious, metabolic, and neoplastic diseases of the digestive system. This authoritative text utilizes an evidence-based approach to refl
