

1. Record Nr.	UNINA9910583092603321
Titolo	Hypertension : a companion to Braunwald's heart disease // [edited by] George L. Bakris, Matthew J. Sorrentino
Pubbl/distr/stampa	Philadelphia, PA : , : Elsevier, , [2018] ©2018
ISBN	0-323-50876-6
Edizione	[Third edition]
Descrizione fisica	1 online resource (523 pages) : color illustrations
Disciplina	616.1/2
Soggetti	Hypertension
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Complemented by: Braunwald's heart disease / edited by Douglas L. Mann, Douglas P. Zipes, Peter Libby, Robert O. Bonow, Eugene Braunwald. 10th edition. 2015.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	General population and global cardiovascular risk prediction -- Hypertension in Latin/Hispanic population -- Hypertension in east Asians and native Hawaiians -- Hypertension in south Asians -- Pathogenesis of hypertension -- Genetics of hypertension -- Inflammation and immunity in hypertension -- The environment and high blood pressure -- Office blood pressure measurement -- Home monitoring of blood pressure -- Ambulatory blood pressure monitoring in clinical hypertension management -- White-coat and masked hypertension -- Renovascular hypertension and ischemic nephropathy -- Secondary hypertension : primary hyperaldosteronism and mineralocorticoid excess states -- Secondary hypertension : pheochromocytoma and paraganglioma -- Secondary hypertension : sleep disturbances including sleep apnea -- Hypertension in children : diagnosis and treatment -- The natural history of untreated hypertension -- Isolated systolic hypertension -- Assessment of target organ damage -- Diet and blood pressure -- Diuretics in hypertension -- Peripheral adrenergic blockers -- Renin angiotensin aldosterone system blockers -- Calcium channel blockers -- Central sympathetic agents and direct vasodilators -- Use of combination therapies -- Device therapies -- Alternative approaches for lowering blood pressure -- Approach to difficult to manage primary hypertension --

Hypertension in ischemic heart disease -- Heart failure --
Hypertension and chronic kidney disease -- Transplant hypertension --
Obesity -- Cerebrovascular disease -- Diabetes mellitus --
Dyslipidemia -- Hypertension in pregnancy -- Hypertension in older
people -- Hypertension in African Americans -- Orthostatic
hypotension -- Resistant hypertension -- Hypertension and the
perioperative period -- Aorta and peripheral arterial disease in
hypertension -- Hypertensive emergencies and urgencies -- Meta-
analyses of blood pressure lowering trials and the blood pressure
lowering treatment trialists' collaboration -- Team-based care for
hypertension management -- Understanding and improving medication
adherence -- Updated American Heart Association/American College of
Cardiology; European Society of Hypertension/International Society of
Hypertension guidelines.

Sommario/riassunto

The third edition of Hypertension: A Companion to Braunwald's Heart Disease, by Drs. George L. Bakris and Matthew Sorrentino, focuses on every aspect of managing and treating patients who suffer from hypertensive disorders. Designed for cardiologists, endocrinologists and nephrologists alike, this expansive, in-depth review boasts expert guidance from contributors worldwide, keeping you abreast of the latest developments from basic science to clinical trials and guidelines. Hypertension also includes an Expert Consult eBook updated with late-breaking clinical trials, reviews of important new articles, and the latest guidance on clinical practice, all selected and masterfully edited by Dr. Eugene Braunwald.
