Sommario/riassunto	Leo Strauss (1899-1973) est certainement un penseur majeur du XXe siècle. Lui qui a rouvert des procès jugés depuis longtemps – la querelle des Anciens et des Modernes, ou encore l'opposition entre la raison et la révélation – fait l'objet de commentaires contradictoires, le présentant comme un penseur tantôt fondamentalement apolitique, uniquement soucieux de redonner sens à la vie philosophique, tantôt

secrètement politique, servant les forces les plus conservatrices des États-Unis. Ce livre entreprend d'abord de retrouver en Strauss un des philosophes politiques les plus stimulants de son siècle, c'est-à-dire un philosophe soucieux de comprendre et d'éclairer les phénomènes politiques. Il faut toutefois convenir qu'abordée sous cet angle, son œuvre présente un singulier paradoxe. Car si Strauss plaide avec force pour un retour à la compréhension classique des régimes politiques, il se montre en même temps très réticent à analyser les différents régimes et clivages du monde moderne. Plus étonnant encore, alors qu'il en appelle à une science politique qui soit fidèle à l'appréhension citoyenne des phénomènes, il ne cesse de relativiser, à propos de son époque, les différences entre communistes, progressistes et conservateurs. En somme, entre sa conception de la bonne science politique, et sa manière presque apolitique de traiter de la modernité, il existe un déroutant hiatus. C'est ce problème plus spécifique que nous explorons ici.

Chapter 1. Reasons for choosing a vegetarian diet -- Chapter 2. Vegetarian diet and your health.

Sommario/riassunto

A growing number of Australians are adopting alternative diets to improve their health or address ethical concerns. As a dietary choice, vegetarianism attracts interest and debate over its responses to environmental sustainability, health and animal cruelty. There are many different forms of vegetarianism (including veganism), and many reasons why people choose a vegetarian lifestyle. This book presents a range of information, much of it contributed by organisations which advocate vegetarianism. What benefits does a vegetarian diet have over one which includes meat? How are the nutritional needs of vegetarians met, particularly among children and young people? What are the facts and myths surrounding vegetarian and vegan diets?
