

1. Record Nr.	UNINA9910583360003321
Titolo	Advances in poultry welfare // edited by Joy A. Mench
Pubbl/distr/stampa	Duxford : , : Woodhead Publishing, an imprint of Elsevier, , [2018] 2018
ISBN	0-08-100930-5
Descrizione fisica	1 online resource (xix, 385 pages) : illustrations (some color)
Collana	Woodhead Publishing Series in Food Science, Technology and Nutrition
Disciplina	636.5
Soggetti	Poultry - Housing Animal welfare
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	pt. 1. Introduction -- pt. 2. Management : hatch to slaughter -- pt. 3. Welfare assessment on the farm -- pt. 4. Continuing challenges -- pt. 5. Emerging issues.
Sommario/riassunto	Advances in Poultry Welfare provides a targeted overview of contemporary developments in poultry welfare. The reviews in the volume address topical issues related to poultry welfare research and assessment, with a focus on identifying practical strategies for improvement as well as information gaps that remain to be filled. Part One provides an introduction to poultry production systems and gives a broad overview of current poultry welfare issues. Part Two moves on to review several aspects of poultry management, focusing on hatchery practices, early rearing, and slaughter. Part Three deals with welfare assessment on the farm, while Part Four explores continuing challenges, such as feather pecking and skeletal problems. This is followed in Part Five by a discussion of emerging issues, with chapters covering alternative parasite control methods, backyard poultry production, mass depopulation, and genetic approaches to reducing the impact of environmental stressors on welfare. This book is an essential part of the wider ranging series Advances in Farm Animal Welfare, with coverage of cattle, sheep, pigs, and poultry. With its expert editor and international team of contributors, Advances in

Poultry Welfare is a key reference tool for welfare research scientists and students, veterinarians involved in welfare assessment, and indeed anyone with a professional interest in the welfare of poultry.--
