

1. Record Nr.	UNINA9910583376403321
Autore	Miller Marilyn T.
Titolo	Crime scene investigation laboratory manual / / Marilyn T. Miller
Pubbl/distr/stampa	London : , : Academic Press, , [2018] ©2018
ISBN	0-12-812846-1
Edizione	[Second edition.]
Descrizione fisica	1 online resource (xiii, 249 pages) : illustrations
Disciplina	363.252
Soggetti	Criminal investigation
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.

2. Record Nr.	UNINA9910955844303321
Titolo	Chemistry in primetime and online : communicating chemistry in informal environments : workshop summary // Tina Masciangioli, rapporteur ; Chemical Sciences Roundtable, Board on Chemical Sciences and Technology, Division on Earth and Life Studies, National Research Council of the National Academies
Pubbl/distr/stampa	Washington, D.C., : National Academies Press, 2011
ISBN	9786613213402 9780309224819 0309224810 9781283213400 1283213400 9780309187718 0309187710
Edizione	[1st ed.]
Descrizione fisica	1 online resource (102 p.)
Altri autori (Persone)	MasciangioliTina
Disciplina	540.14
Soggetti	Chemistry - Computer network resources Chemistry - Electronic information resources
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	""Front Matter""; ""Preface""; ""Acknowledgment of Reviewers""; ""Contents""; ""Acronyms""; ""1 Overview""; ""2 Introduction to Informal Learning""; ""3 Chemistry in Print""; ""4 Local Outreach Efforts""; ""5 Chemistry in Museums""; ""6 Chemistry in Video, in Movies, and on the Radio""; ""7 Tools and Techniques""; ""8 Workshop Wrap-up Session""; ""Appendixes""; ""Appendix A: Select References""; ""Appendix B: Workshop Agenda""; ""Appendix C: Biographies""; ""Appendix D: Workshop Attendees""; ""Appendix E: Origin of and Information on the Chemical Sciences Roundtable""
Sommario/riassunto	"It is critical that we increase public knowledge and understanding of science and technology issues through formal and informal learning for the United States to maintain its competitive edge in today's global economy. Since most Americans learn about science outside of school,

we must take advantage of opportunities to present chemistry content on television, the Internet, in museums, and in other informal educational settings. In May 2010, the National Academies' Chemical Sciences Roundtable held a workshop to examine how the public obtains scientific information informally and to discuss methods that chemists can use to improve and expand efforts to reach a general, nontechnical audience. Workshop participants included chemical practitioners (e.g., graduate students, postdocs, professors, administrators); experts on informal learning; public and private funding organizations; science writers, bloggers, publishers, and university communications officers; and television and Internet content producers. Chemistry in primetime and online is a factual summary of what occurred in that workshop. Chemistry in primetime and online examines science content, especially chemistry, in various informal educational settings. It explores means of measuring recognition and retention of the information presented in various media formats and settings. Although the report does not provide any conclusions or recommendations about needs and future directions, it does discuss the need for chemists to connect more with professional writers, artists, or videographers, who know how to communicate with and interest general audiences. It also emphasizes the importance of formal education in setting the stage for informal interactions with chemistry and chemists."--Publisher's description.
