

1. Record Nr.	UNINA9910583456203321
Titolo	Nephrology and fluid/electrolyte physiology // [edited by] William Oh, Michel Baum ; consulting editor, Richard A. Polin
Pubbl/distr/stampa	Philadelphia, PA : , : Elsevier, , [2019] ©2019
Edizione	[Third edition.]
Descrizione fisica	1 online resource (xi, 277 pages) : illustrations (chiefly color)
Collana	Neonatology questions and controversies
Soggetti	Pediatric nephrology Newborn infants - Diseases Infant, Newborn, Diseases Kidney Diseases Infant, Newborn Water-Electrolyte Imbalance
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Section 1. Foreword. Water flux and amniotic fluid volume: understanding fetal water flow -- Body composition of fetus and newborn -- Potassium metabolism -- Section B. Renal aspects of sodium metabolism in the fetus and neonate -- Perinatal calcium and phosphorus metabolism -- Acid-base homeostasis in the fetus -- Section C. Glomerular filtration rate in neonates -- Section D. Renal development and molecular pathogenesis of renal dysplasia -- The developing kidney and the fetal origins of adult cardiovascular disease -- Fluid and electrolyte management of high risk infants -- Renal modulation: the renin-angiotensin-aldosterone system -- Renal modulation: arginine vasopressin and atrial natriuretic peptide -- Acute problems of prematurity: balancing fluid volume and electrolyte replacements in very low birth weight and extremely low birth weight neonates -- Lung fluid balance in developing lungs and its role in neonatal transition -- Use of diuretics in the newborn -- Neonatal hypertension: diagnosis and management -- Edema -- Kidney injury in the neonate -- Hereditary tubulopathies -- Inherited disorders of

calcium, phosphate and magnesium.

Sommario/riassunto

Dr. Richard Polin's Neonatology Questions and Controversies series highlights the most challenging aspects of neonatal care, offering trustworthy guidance on up-to-date diagnostic and treatment options in the field. In each volume, renowned experts address the clinical problems of greatest concern to today's practitioners, helping you handle difficult practice issues and provide optimal, evidence-based care to every patient.

2. Record Nr.

UNIORUON00182907

Titolo

La stampa italiana dal Cinquecento all'Ottocento / Valerio Castronovo, Giuseppe Ricuperati, Carlo Capra ; introduzione di Nicola Tranfaglia
