

1. Record Nr.	UNINA9910583459103321
Autore	Caraiani Petre
Titolo	Introduction to quantitative macroeconomics using Julia : from basic to state-of-the-art computational techniques // Petre Caraiani
Pubbl/distr/stampa	London, United Kingdom : , : Academic Press, an imprint of Elsevier, , [2019] ©2019
ISBN	0-12-813512-3 0-12-812219-6
Edizione	[First edition.]
Descrizione fisica	1 online resource (389 pages) : illustrations
Disciplina	339.3
Soggetti	Macroeconomics Macroeconomics - Computer simulation Julia (Computer program language)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	Introduction to Quantitative Macroeconomics Using Julia: From Basic to State-of-the-Art Computational Techniques facilitates access to fundamental techniques in computational and quantitative macroeconomics. It focuses on the recent and very promising software, Julia, which offers a MATLAB-like language at speeds comparable to C/Fortran, also discussing modeling challenges that make quantitative macroeconomics dynamic, a key feature that few books on the topic include for macroeconomists who need the basic tools to build, solve and simulate macroeconomic models. This book neatly fills the gap between intermediate macroeconomic books and modern DSGE models used in research.
