

1. Record Nr.	UNINA9910583460803321
Autore	Wang Ting
Titolo	Integrated gasification combined cycle (IGCC) technologies / / edited by Ting Wang, Gary Stiegel
Pubbl/distr/stampa	Wlatham, MA : , : Elsevier, , [2017] ©2017
ISBN	0-08-100185-1 0-08-100167-3
Edizione	[1st edition]
Descrizione fisica	1 online resource (929 pages) : color illustrations
Collana	Woodhead publishing series in energy
Soggetti	Gas industry Coal gasification
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	Integrated Gasification Combined Cycle (IGCC) Technologies discusses this innovative power generation technology that combines modern coal gasification technology with both gas turbine and steam turbine power generation, an important emerging technology which has the potential to significantly improve the efficiencies and emissions of coal power plants. The advantages of this technology over conventional pulverized coal power plants include fuel flexibility, greater efficiencies, and very low pollutant emissions. The book reviews the current status and future developments of key technologies involved in IGCC plants and how they can be integrated to maximize efficiency and reduce the cost of electricity generation in a carbon-constrained world. The first part of this book introduces the principles of IGCC systems and the fuel types for use in IGCC systems. The second part covers syngas production within IGCC systems. The third part looks at syngas cleaning, the separation of CO ₂ and hydrogen enrichment, with final sections describing the gas turbine combined cycle and presenting several case studies of existing IGCC plants. Provides an in-depth, multi-contributor overview of integrated gasification combined cycle technologies Reviews the current status and future developments of

key technologies involved in IGCC plants Provides several case studies of existing IGCC plants around the world

2. Record Nr.	UNINA9910774901103321
Autore	Newman Janet
Titolo	Working the Spaces of Power : Activism, Neoliberalism and Gendered Labour // Janet Newman
Pubbl/distr/stampa	London : , : Bloomsbury Academic, , 2012
ISBN	1-78093-277-4
Descrizione fisica	1 online resource (xiii, 212 pages)
Disciplina	320.513
Soggetti	Neoliberalism
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	"This book highlights the way in which contemporary forms of governance, policy and politics have been reframed by women 'working the spaces of power'. It shows how links between activism and work have generated innovations that have since become 'common sense' forms of policy and practice. Janet Newman draws on interviews with a wide variety of women in positions of power, some at the highest levels of government, some who have led major voluntary bodies, others who are entrepreneurs, philanthropists, community activists and campaigners. All of their work has been informed by a range of social movements and activist commitments. Newman uses these interviews to interrogate, develop and challenge existing approaches to understanding social and political change."--Publisher's description.

3. Record Nr.	UNIORUON00396947
Autore	BERARD, Jean
Titolo	La colonisation grecque de l'Italie meridionale et de la Sicile dans l'antiquite : l'histoire et la legende / par Jean Berard ; ouvrage publie avec les concours du Centre national de la recherche scientifique
Pubbl/distr/stampa	2. ed. revue et mise a jour - Paris, : Presses universitaires de France, 1957 - XII, 522 p., [2] c. geogr. ripieg. ; 23 cm - Publications de la Faculte des lettres de Paris
Lingua di pubblicazione	Francese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	In testa al front.: Publications de la faculte des lettres de Paris))
