

1. Record Nr.	UNINA9910583474503321
Autore	Youcai Zhao
Titolo	Pollution control technology for leachate from municipal solid waste : landfills, incineration plants, and transfer stations / / Zhao Youcai
Pubbl/distr/stampa	Cambridge, MA : , : Butterworth-Heinemann, , [2018] ©2018
ISBN	0-12-815814-X
Descrizione fisica	1 online resource (xxiii, 549 pages) : illustrations
Disciplina	628.44564
Soggetti	Sanitary landfills - Environmental aspects Leaching Refuse Disposal Sewage Purification - Environmental aspects
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	1. Leachate generation and characteristics 2. Physical and chemical treatment processes for leachate 3. Biological treatment processes for leachate and physical and chemical treatment processes for its effluents 4. Irrigation of diluted leachate for plants growth 5. Leachate treatment engineering processes
Sommario/riassunto	Pollution Control Technology for Leachate from Municipal Solid Waste explores the physical, chemical and biological factors that produce leachate and technological solutions for its control. The book introduces the integrated and pre-treatment leachate treatment processes that are necessary to deal with the variations of pollutants in leachate. Real world case-studies are provided to illustrate these treatment processes, along with leachate treatment engineering process design and the construction of municipal solid waste incinerator power plants. This book will be of particular interest to Civil, Chemical and Environmental Engineers, but will also be ideal for Environmental Scientists.
