Sommario/riassunto	A aiva Utopia centers on the eleventh chapter of the ivadharmastrā, known as the Chapter on iva's Discipline (ivramdhyya). A critical edition and annotated English translation of the Sanskrit text of this chapter is preceded by a comprehensive study of the ivadharma's revision of the Brahmanical 'laws on class and discipline' (varramadharma), tracing its utopian vision of a society bound by iva devotion. An edition and English translation of a Sanskrit commentary on the chapter, preserved on a unique palm leaf manuscript in Malayalam script, is included as well. The book concludes with an appendix, which addresses the revision of the ivramdhyya in the Bhaviyapura, where the ivadharma has been turned into a Sauradharma ('religion of the Sun'). A aiva Utopia should be of interest to all historians of Indian religions.
