

1. Record Nr.	UNINA9910811190703321
Autore	Kimbel Tyler M.
Titolo	A guide to graduate programs in counseling // written and edited by Tyler M. Kimbel and Dana Heller Levitt
Pubbl/distr/stampa	New York, New York : , : Oxford University Press, , 2017 ©2017
ISBN	0-19-060374-7 0-19-060373-9
Descrizione fisica	1 online resource (177 pages)
Disciplina	158.3071/1
Soggetti	Counseling - Study and teaching Graduate students
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.

2. Record Nr.	UNINA9910584596103321
Autore	Rosenberg Michael
Titolo	The Dynamics of Cultural Evolution : The Central Role of Purposive Behaviors / / by Michael Rosenberg
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2022
ISBN	9783031048630 9783031048623
Edizione	[1st ed. 2022.]
Descrizione fisica	1 online resource (207 pages)
Collana	Studies in Human Ecology and Adaptation ; ; 12
Disciplina	303.4
Soggetti	Human evolution Anthropology Archaeology Social evolution Evolution (Biology) Paleontology Evolutionary Anthropology Cultural Evolution Social Evolution Evolutionary Biology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	This book explores the nature of cultural and culturally structured social and behavioral entities, their evolutionary interactions, and the central role purposive behaviors play in those interactions. It, first, makes the case for cultural and cultural structured systems being considered as true entities bounded in time and space, and not ephemera in a constant state of becoming another system. Second, it examines how these entities interact to produce evolutionary culture change. It then argues that the intent of purposive behaviors is reliably knowable in the aggregate, at least when dealing with expressions of behavioral tendencies in the animal kingdom, humans included. Finally,

the book references well documented behavioral tendencies for examples of proximate causation in the evolution of settled village societies and, following that, socially complex societies. Through these efforts, the book synthesizes the various approaches to the evolution of culture and provides a complete and comprehensive picture of the process. It provides a corrective to the tendency to view cultural systems as entirely open ended and as capable of changing in any direction; and also to treating cultural evolution as solely a result of selective forces, that is, in terms of only ultimate causation. This book provides an engaging and critical counterview to established theories of cultural evolution and is of interest to scholars and students of different disciplines, from anthropology and archeology, to evolutionary biology and epigenetics.
