

1. Record Nr.	UNINA9910584597103321
Titolo	Floriculture and ornamental plants // edited by S. K. Datta, Youdh Chand Gupta
Pubbl/distr/stampa	Singapore : , : Springer, , [2022] ©2022
ISBN	981-15-3518-3
Descrizione fisica	1 online resource (895 pages) : illustrations (chiefly color)
Collana	Handbooks of Crop Diversity: Conservation and Use of Plant Genetic Resources
Disciplina	910.5
Soggetti	Floriculture
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Marigold Bougainvillea Carnation Chrysanthemum Gladiolus Lilium Alstroemeria Rose Tulip Annual sTraditional bulbous plants Pot plants Orchids Landscaping Gerbera Jasmine Tuberose Hibiscus Modern techniques for plant breeding in ornamentals Dischidia, Medinilla and Nepenthes Value Addition: Dehydration of Flowers and Foliage and Floral Craft
Sommario/riassunto	The volume on floriculture and ornamental plants will be the source of basic information on origin and evolution and global dispersal of cultivated species of ornamentals. Presently, floriculture has established its credibility in improving income through increased productivity, generating employment and in enhancing exports. All research and developmental activities on ornamental crops are essentially multi-disciplinary in nature recognizing local issues as well as country issue. Floriculture is developing as an area of high technology based frontier interdisciplinary area on scientific excellence. Floriculture has progressed both scientifically and commercially due to concentrated efforts made on multidisciplinary research. It is developing as an area of high technology based frontier interdisciplinary area on scientific excellence. The volume will contain all information about different ornamentals.
