

1. Record Nr.	UNINA9910585775803321
Titolo	Climate Change, Natural Resources and Sustainable Environmental Management // edited by Hüseyin Gökçeku, Youssef Kassem
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2022
ISBN	3-031-04375-8
Edizione	[1st ed. 2022.]
Descrizione fisica	1 online resource (379 pages)
Collana	Environmental Earth Sciences, , 2199-9163
Disciplina	551.6 363.73874
Soggetti	Environmental management Water Hydrology Sustainability Renewable energy sources Refuse and refuse disposal Environmental Management Renewable Energy Waste Management/Waste Technology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Water Resources Management -- Water Policies and Planning -- Sustainability and Water -- Water and Wastewater Treatment -- Aquatic Ecosystems -- Groundwater -- Wetland Systems -- Clean Energy and Water -- Clean Energy and Environment -- Energy and Geothermal -- Integrated Water Resources Management -- Solid Waste Management: Waste Disposal and Recycling -- Artificial Intelligence Tools in Environmental, Hydrology and Climatic Researches -- Geo-Environment -- Environmental Education -- Environmental Management.
Sommario/riassunto	This book is a compilation of selected papers from the Fifth International Conference on Natural Resources and Sustainable Environmental Management held in Near East University, November 2021. It provides intellectual guidance and scientific evidence on the challenges of global warming and climate change based on a

humanistic and critical thinking approach, promoting research and education to build equality in the global community and more sustainable societies. This book also addresses the current challenges of bridging the gap between government policymakers and providers of science and solutions with innovative ideas and new visions to help resolve the challenges facing us in the area of natural resources (water, energy), and environment.
