

1. Record Nr.	UNINA9910586568403321
Autore	Deubel Maximilian
Titolo	Untersuchungen zur Wirtschaftlichkeit von Building Information Modeling (BIM) in der Planungs- und Realisierungsphase von Bauprojekten
Pubbl/distr/stampa	Karlsruhe, : KIT Scientific Publishing, 2021
ISBN	1000120175
Descrizione fisica	1 electronic resource (472 p.)
Collana	Karlsruher Reihe Technologie und Management im Baubetrieb
Soggetti	Civil engineering, surveying & building
Lingua di pubblicazione	Tedesco
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	BIM is seen as an opportunity to complete construction projects more reliably. At the same time, various challenges are discussed that make the introduction more difficult. So far, there has been less focus on investigating the economic efficiency of BIM itself. The aim is therefore to make the expenses and benefits of BIM determinable. As a result, BIM users will receive assistance in determining the economic efficiency of individual BIM use cases and thus of BIM as a whole.
