

1. Record Nr.	UNINA9910586568703321
Autore	Cihan Ebru
Titolo	Structure evolution in tribological interfaces studied by multilayer model alloys
Pubbl/distr/stampa	Karlsruhe, : KIT Scientific Publishing, 2020
ISBN	1000100033
Descrizione fisica	1 electronic resource (194 p.)
Soggetti	Mechanical engineering & materials
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Recent studies of deformation mechanisms of metals and alloys pioneer the better investigation of the friction and wear behavior of materials with well-defined initial microstructures. Within this scope, in this work, the effect of sub-surface deformations on the resulting friction and wear behavior has been searched by means of a systematic experimental study on Au-Ni metallic multilayer model alloy system.
