   Sommario/riassunto   Image processing plays a key role for fast and contact-free data
                        acquisition in many technical areas, e.g., in quality control or robotics.
                        These conference proceedings of the "Forum Bildverarbeitung", which
                        took place on 26.-27.11.202 in Karlsruhe as a common event of the
                        Karlsruhe Institute of Technology and the Fraunhofer Institute of
                        Optronics, System Technologies and Image Exploitation, contain the
                        articles of the contributions.
