Disciplina	943/.004924074
Soggetti	Jewish studies History: theory & methods
Lingua di pubblicazione	Tedesco
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Museums have an important task when it comes to the subject of Judaism. Prejudices, stereotypical thinking, and sheer ignorance are widespread. What is the best way to present Jewish diversity today? The author examines how Jewish museums and education projects are facing up to this challenge and the role played by the culture of remembrance in this process, focusing on museums in Basel, Hohenems, Gailingen, and Bouxwiller.
