Nathan -- An Autobiographical Sketch / C. Nathan -- Index / C. Nathan.
Sommario/riassunto	Clemens N. Nathan has devoted a lifetime to the pursuit of Human Rights – to understanding and reflecting upon the concept of Human Rights; to participating in, and sometimes helping to create, organisations and mechanisms for the protection and promotion of Human Rights; to helping those who have been denied their Human Rights and to encouraging and supporting research into and scholarship on Human Rights. All this has been achieved by a man who has had no formal training in the field, but who has become a

recognised expert through his extensive reading, through working with leading exponents, and by drawing upon his lively intellect, his wealth of culture and his knowledge of history, philosophy and religions. This volume, published under the auspices of the Raoul Wallenberg Institute of Human Rights and Humanitarian Law, offers insight into the challenging relationship between religion and human rights.

## Sommario/riassunto

This textbook serves as a comprehensive manual on Optics that includes both didactics and assessment questions in an easy-to-read format. It provides an educational and entertaining resource that reinforces the relevance of the subject matter to modern clinical and surgical ophthalmology practice. The book offers a one-stop compendium for students studying for certification exams and for practicing ophthalmologists to review and learn Optics that will have relevance to their day-to-day practice. Chapters are written in a teaching-oriented style and include hi-yield summaries, 375+ original figures, and 190+ review questions. The book is divided into three areas of focus: Written Exam Preparation Oral Exam Preparation and Clinical Practice Ophthalmic Optics for Surgical Practice Optics for the New Millennium is a must-have resource for ophthalmology residents as well as practicing ophthalmologists with clinical, surgical and testable relevance.
