

1. Record Nr.	UNINA9910590097103321
Autore	Smith Mary C
Titolo	Goat Medicine
Pubbl/distr/stampa	Newark : , : John Wiley & Sons, Incorporated, , 2022 ©2022
ISBN	1-119-38277-7 1-119-38276-9
Edizione	[3rd ed.]
Descrizione fisica	1 online resource (978 pages)
Altri autori (Persone)	ShermanDavid M
Disciplina	636.3/9089
Soggetti	Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Cover -- Title Page -- Copyright Page -- Contents -- Preface to the First Edition -- Preface to the Second Edition -- Preface to the Third Edition -- Acknowledgments -- Chapter 1 Fundamentals of Goat Practice -- Overview -- Distribution of Goats -- Use of Goats -- Current Interest in Goats -- Distinguishing Goats from Sheep -- Goat Behavior -- General Characteristics -- Ingestive and Eliminate Behavior -- Sexual Behavior -- Maternal Behavior -- Handling Goats -- Group Considerations -- Individual Restraint -- Administering Medications -- Clinical Examination of Goats -- History Taking -- Special Considerations for Range and Pastured Goats -- Special Considerations for Intensively Managed Goats -- Special Considerations for Hobby Farms -- Special Considerations for Organic Goat Production -- Special Considerations for Genetically Modified (Transgenic) and Cloned Goats -- Physical Examination -- Inspection from a Distance -- Direct Physical Examination of Individual Goats -- General Inspection -- Examination of the Integument -- Examination of the Head -- Examination of the Neck -- Examination of the Chest -- Examination of the Abdomen -- Examination of the Limbs -- Examination of the Reproductive System -- Examination of the Environment -- Field Necropsies and Slaughterhouse Checks -- References -- Chapter 2 Skin -- Normal Anatomy and Physiology of the Skin and Hair -- Skin -- Specialized Skin Structures -- Hair

and Shedding -- Fiber Production -- Mohair -- Cashmere -- Cashgora -- Pygora -- Production of Skins -- Diagnosis of Skin Disease -- History -- Clinical Signs of Skin Disease -- Body Localization as an Aid to Diagnosis -- Clinical Laboratory Examination -- Etiologic Diagnoses -- Viral Diseases -- Contagious Ecthyma -- Capripox -- Miscellaneous Virus Infections -- Bacterial Diseases -- Staphylococcal Dermatitis -- Dermatophilosis.

Corynebacterium pseudotuberculosis -- Actinobacillosis, Actinomycosis, Mycobacteriosis, and Protothecosis -- Fungal Diseases -- Ringworm -- Yeast Infections -- Miscellaneous Fungal Infections -- Parasitic Diseases -- Lice (Pediculosis) -- Fleas -- Keds -- Biting Flies, Gnats, Mosquitoes, and Fire Ants -- Cutaneous Myiasis -- Warbles -- Ticks -- Sarcoptic Mange -- Chorioptic Mange -- Psoroptic Mange -- Raillietia -- Demodectic Mange (Demodicosis) -- Free-Living Mites -- Rhabditic Dermatitis and Strongyloidiasis -- Parelaphostrongylosis and Elaphostrongylosis -- Filarid Dermatitis -- Besnoitiosis -- Nutritional Diseases -- Zinc Deficiency and Zinc-Responsive Dermatoses -- Iodine Deficiency -- Vitamin A Deficiency -- Vitamin E and Selenium-Responsive Dermatoses -- Selenium Toxicosis -- Sulfur Deficiency -- Environmental Insults -- Sunburn -- Burns Induced by Fire -- Photosensitization -- Kaalsiekte -- Frostbite -- Ergotism -- Urine Scald -- Other Contact Dermatitis Conditions -- Neoplasia -- Papilloma -- Udder Warts -- Carcinomas -- Melanomas -- Inherited or Congenital Conditions -- Miscellaneous Conditions -- Pemphigus -- Alopecia Areata -- Alopecic Exfoliative Dermatitis, Psoriasiform Dermatitis -- Lichenoid Dermatitis and Ichthyosis -- Allergy or Hypersensitivity -- References -- Chapter 3 Subcutaneous Swellings -- Swellings with Unrestricted Distribution -- Hematoma and Seroma -- Cellulitis and Abscess -- Emphysema -- Edema -- Lymph Node Enlargement -- Caseous Lymphadenitis -- Melioidosis -- Other Infectious Agents -- Lymphosarcoma -- Prominent Lymph Nodes of Normal Size -- Swellings Involving the Head -- Retention of a Cud in the Cheek -- Salivary Mucocele -- Abscess -- Osteodystrophia Fibrosa -- Bottle Jaw -- Swelled Head of Bucks -- Deformation of the Cranium -- Swellings Involving the Neck and Chest -- Abscesses Other Than Caseous Lymphadenitis.

Tissue Necrosis ("Sterile Abscesses") Caused by Injections -- Wattle Cyst and Thyroglossal Duct Cyst -- Thyroid Gland and Goiter -- Thymus -- Phlebitis -- Atlantal Bursitis -- Sternal Abscesses and Hygromas -- Warbles -- Tapeworm Cysts -- Swellings Involving the Abdomen and Escutcheon -- Umbilical Hernia -- Umbilical Abscess -- Abdominal or Flank Hernia -- Ventral Hernia -- Ventral Edema of Angoras -- Urethral Rupture -- Gangrenous Mastitis -- Ectopic Mammary Gland -- References -- Chapter 4 Musculoskeletal System -- Background Information of Clinical Importance -- Anatomy and Physiology -- Clinical Pathology -- Diagnostic Procedures -- Diagnosis of Musculoskeletal Disease by Presenting Signs -- Abnormally Appearing or Sore Feet -- Swelling Around the Joints -- Stiff, Painful, or Abnormal Gait -- Failure to Extend a Limb or Limbs -- Non-weightbearing on a Single Limb -- Bowed Limbs -- Conditions Restricted to a Forelimb -- Conditions Restricted to a Hindlimb -- Weakness and Recumbency -- Specific Diseases of the Musculoskeletal System -- Viral Diseases -- Caprine Arthritis Encephalitis -- Foot and Mouth Disease -- Akabane Disease and Related Orfthobunyaviruses -- Bacterial Diseases -- Mycoplasma Arthritis -- Bacterial Polyarthritis -- Osteomyelitis -- Lyme Disease -- Clostridial Myositis and Myonecrosis -- Foot Scald, Foot Rot, Foot Abscesses, and Digital Dermatitis -- Parasitic Diseases -- Cestodiasis --

Besnoitiosis -- Sarcocystosis -- Nutritional and Metabolic Diseases -- Nutritional Muscular Dystrophy -- Rickets -- Osteoporosis -- Epiphysitis -- Bentleg or Bowie -- Fibrous Osteodystrophy (Osteodystrophia Fibrosa) -- Osteopetrosis -- Laminitis -- Zinc Deficiency -- Toxicological Diseases -- Hypervitaminosis D -- Fluorosis -- Chronic Selenium Poisoning -- Plants Toxic to the Musculoskeletal System -- Lupinosis -- Inherited and Congenital Diseases.

Myotonia Congenita -- Various Congenital Skeletal Abnormalities -- Neoplastic Diseases -- References -- Chapter 5 Nervous System -- Background Information of Clinical Importance -- Anatomy and Physiology -- Neurologic Examination -- Cerebrospinal Fluid Analysis -- Imaging Techniques -- Electroencephalogram -- Diagnosis of Neurologic Disease by Presenting Signs -- Signs of Altered Mental State or Behavior -- Signs of Cranial Nerve Deficits -- Signs of Involuntary Activity -- Gait Abnormalities -- Postural Abnormalities -- Specific Diseases of the Nervous System -- Viral and Prion Diseases -- Pseudorabies -- Scrapie -- Bovine Spongiform Encephalopathy -- Caprine Arthritis Encephalitis and Maedi-Visna -- Border Disease -- Louping-ill and Related Infections in Small Ruminants -- Borna Disease -- West Nile Encephalomyelitis -- Bacterial Diseases -- Listeriosis -- Tetanus -- Botulism -- Clostridium perfringens Type D Enterotoxemia -- Meningoencephalitis and Brain Abscesses -- Parasitic Diseases -- Parelaphostrongylosis and Elaphostrongylosis -- Setariasis -- Strongyloidiasis -- Coenurosis -- Tick Paralysis -- Nutritional and Metabolic Diseases -- Polioencephalomalacia -- Enzootic Ataxia and Swayback -- Hypovitaminosis A -- Plant Toxicities -- Bitterweed Poisoning -- Coyotillo Poisoning -- Astragalus Poisoning (Alpha Mannosidosis -- Locoism) -- Guajillo Poisoning -- Hairy Caltrop Poisoning -- Milkweed Poisoning -- Cycasin Toxicity or Zamia Staggers -- Miscellaneous Plant Poisonings -- Inorganic Chemical Neurotoxicities -- Lead Poisoning -- Salt Poisoning -- Bromide Intoxication -- Boron or Borax Intoxication -- Organic Chemical Neurotoxicities -- Organophosphates and Carbamates -- Chlorinated Hydrocarbons -- Miscellaneous Organic Chemical Toxicities -- Congenital and Inherited Diseases -- Beta Mannosidosis -- Mucopolysaccharidosis IIID.

Progressive Paresis of Angora Goats -- Spastic Paresis -- Hydrocephalus and Hydranencephaly -- Neoplastic Disease -- Neurologic Diseases of Unknown Etiology -- Polyradiculoneuritis -- Caprine Encephalomyelomalacia -- References -- Chapter 6 Ocular System -- Clinical Anatomy and Examination of the Eye -- Lids and Lashes -- Lacrimal Glands and Ducts -- Ocular Position -- Conjunctiva, Sclera, and Scleral Vessels -- Cornea -- Iris, Pupil, and Lens -- Retina and Ophthalmoscopic Examination -- Cranial Nerves and Evaluation for Blindness -- Malformations of the Globe -- Cyclopia -- Microphthalmia and Other Defects -- Lid Abnormalities -- Entropion -- Tumors -- Conjunctivitis and Keratoconjunctivitis -- Infectious Keratoconjunctivitis -- Non-infectious Keratitis -- Anterior Uveitis, Cataracts, and Glaucoma -- Causes of Anterior Uveitis -- Treatment of Anterior Uveitis -- Cataracts -- Glaucoma -- Retinal Changes -- Papilledema -- Chorioretinitis -- Chorioretinopathy -- Retinal Detachment -- Amaurosis -- Blindness versus Failure to Blink -- Blindness versus Severe Depression or Toxemia -- Polioencephalomalacia -- Enterotoxemia -- Lead Poisoning -- Hydrocephalus -- Vitamin A Deficiency -- Coenurosis -- Miscellaneous Causes of Central Blindness -- Residual Blindness -- Enucleation -- References -- Chapter 7 Blood, Lymph, and Immune Systems -- Basic

Caprine Hematology -- Anatomic Considerations -- Bone Marrow --
Blood and Plasma Parameters -- Erythrocyte Parameters -- Hemoglobin
-- Response to Anemia -- Blood Types -- Transfusions -- Leukocyte
Parameters -- Interpretation of Leukogram -- Platelet Parameters --
Coagulation Parameters -- Basic Caprine Immunology --
Immunoglobulins -- Other Serum Proteins -- Cell-Mediated Immune
System -- Cytokines -- Major Histocompatibility Complex -- Toll-Like
Receptors -- Diagnosis of Hemic-Lymphatic Diseases by Presenting
Sign.
Bleeding Disorders.
