

1. Record Nr.	UNINA9910592978703321
Autore	Liang Yu
Titolo	Fundamental studies of shock-driven hydrodynamic instabilities / / Yu Liang
Pubbl/distr/stampa	Gateway East, Singapore : , : Springer, , [2022] ©2022
ISBN	9789811929922 9789811929915
Descrizione fisica	1 online resource (201 pages)
Collana	Springer Theses
Disciplina	532.5
Soggetti	Hydrodynamics Interfaces (Physical sciences) - Mathematics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Intro -- Supervisor's Foreword -- Abstract -- Parts of this paper have been published in the following journal articles -- Acknowledgements -- Contents -- Abbreviations -- Physical Constants at 1 atm Pressure and 293.15 K -- List of Figures -- List of Tables -- 1 Introduction -- 1.1 Research Background -- 1.2 Research Progress -- 1.2.1 Study of Shock-Driven Single-Mode Interface Evolution -- 1.2.2 Study of Shock-Driven Multi-mode Interface Evolution -- 1.2.3 Study of Shock-Driven Three-Dimensional Interface Evolution -- 1.2.4 Study of Rippled-Shock-Driven Unperturbed Interface Evolution -- 1.2.5 Study of Shock-Driven Multi-layer Interface Evolution -- 1.2.6 Study of Shock-Driven Multi-phase Interface Evolution -- 1.3 Research Contents -- References -- 2 Shock-Driven Multi-mode Interface Evolution -- 2.1 Shock-Driven Single-Mode Interface Evolution -- 2.1.1 Experimental Method -- 2.1.2 Results and Discussion -- 2.2 Shock-Driven Quasi-single-mode Interface Evolution -- 2.2.1 Experimental Method -- 2.2.2 Qualitative Analysis -- 2.2.3 Quantitative Analysis -- 2.2.4 Theoretical Analysis -- 2.3 Shock-Driven Multi-mode Interface Evolution -- 2.3.1 Experimental Method -- 2.3.2 Qualitative Analysis -- 2.3.3 Linear and Nonlinear Theories -- 2.3.4 The Mixing Width Growth -- 2.4 Shock-Driven Three-Dimensional Interface Evolution -- 2.4.1 Experimental Method -- 2.4.2 Initial 3DMS Interface Configuration -- 2.4.3

Experimental Observation -- 2.4.4 Linear and Nonlinear Amplitude Growths -- 2.5 Conclusions -- References -- 3 Shock-Driven Multi-layer Interface Evolution -- 3.1 Shock-Driven Heavy Gas Layer Evolution -- 3.1.1 Experimental Method -- 3.1.2 One-Dimensional Experimental Results and Analysis -- 3.1.3 Two-Dimensional Experimental Results and Analysis -- 3.2 Shock-Driven Light Gas Layer Evolution -- 3.2.1 Experimental Method.
3.2.2 One-Dimensional Experimental Results and Analysis -- 3.2.3 Two-Dimensional Experimental Results and Analysis -- 3.2.4 Comparison Between Light Gas Layer and Heavy Gas Layer -- 3.3 Shock-Driven Dual Layer Evolution -- 3.3.1 Linear Stability Analysis -- 3.3.2 Experimental Method -- 3.3.3 One-Dimensional Motions of Waves and Interfaces -- 3.3.4 Two-Dimensional Hydrodynamic Instabilities -- 3.4 Conclusions -- References -- 4 Shock-Driven Multi-phase Interface Evolution -- 4.1 Shock-Driven Multi-phase Droplet Interaction -- 4.1.1 Experimental Method -- 4.1.2 Qualitative Analysis -- 4.1.3 Droplet Deformation -- 4.1.4 Bubble Evolution -- 4.2 Conclusions -- References -- 5 Conclusions and Outlook -- 5.1 Conclusions -- 5.2 Innovations -- 5.3 Outlook -- References.
