

1. Record Nr.	UNINA9910592987203321
Titolo	Quality improvement and patient safety in orthopaedic surgery // Julie Balch Samora and Kevin G. Shea, editors
Pubbl/distr/stampa	Cham, Switzerland : , : Springer Nature Switzerland AG, , [2022] ©2022
ISBN	3-031-07105-0
Descrizione fisica	1 online resource (341 pages) : illustrations
Disciplina	617.3
Soggetti	Orthopedic surgery - Complications - Prevention Patients - Safety measures Orthopedic surgery Orthopedic Procedures Medical Errorsxprevention & control Patient Safety Quality Improvement Patient Reported Outcome Measures
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Concepts of Patient Safety -- QI Principles and Models -- TeamSTEPPS: Strategies and Tools to Enhance Performance and Patient Safety -- Shifting from Volume to Value -- Quality Improvement: Using Care Pathways in EMR -- Pre-op Optimization Checklists -- Surgical Site Infection Risk Reduction -- Reduction of Wrong Site Surgery -- Learning from Mistakes -- Use of Registries and Prospective Cohorts to Improve Care -- Clinical Practice Guidelines and Appropriate Use Criteria to Guide Care -- Performance Measures -- Interpreting and Implementing Evidence for Quality Research -- Biologics, Implants, and Patient Safety -- Device Industry: Preventing, Identifying and Mitigating Problems -- Variation, Costs and Physician behavior -- Development of Care Maps for Complex Conditions -- Communication Strategies to Minimize Harm and Improve Care in Orthopaedic Surgery -- Integration of Physician Management into Supply Chain optimization -- Organizational Response to Errors -- Using Simulation to Decrease

Patient Harm -- Safe and Effective Alleviation of Pain and Optimal Opioid Stewardship -- Diversity and Cultural Competence to enhance Quality and Safety -- Radiation Safety -- Physician and Clinician Well-Being -- Advocacy to promote quality musculoskeletal care -- The Role of the Board in Driving Performance Improvement -- Innovation and Value -- The Modern Orthopaedic Morbidity and Mortality Conference: An Instrument for Education and System-wide Quality Improvement -- Telehealth and Quality Care -- Using Quality Improvement to Enhance Geriatric Fracture Care -- Orthopaedic Surgeons as Managers and Leaders: Developing the Right Culture.
