

1. Record Nr.	UNINA9910592998603321
Titolo	BMJ innovations
Pubbl/distr/stampa	London : , : BMJ Publishing Group Ltd., , [2015]-
ISSN	2055-8074
Descrizione fisica	1 online resource
Soggetti	Medicine - Research Medical Informatics Applications Telemedicine Self-Help Devices Biomedical Technology Fulltext Internet Resources. Periodicals. Periodical
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Periodico
Note generali	Refereed/Peer-reviewed

2. Record Nr.	UNINA9910790527303321
Autore	Keith David W.
Titolo	A case for climate engineering // David Keith
Pubbl/distr/stampa	Cambridge, Mass. : , : The MIT Press, , [2013]
ISBN	0-262-31779-6 0-262-31778-8
Descrizione fisica	1 online resource (224 pages)
Collana	A Boston review book
Disciplina	551.68
Soggetti	Climate change mitigation Global warming - Prevention Environmental engineering Sulfuric acid - Environmental aspects Environmental geotechnology Environmental policy
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references (pages [183]-194).
Nota di contenuto	Engineering the world's sunshine -- Climate risk -- Science -- Technology and design -- Ethics and politics -- Prospect.
Sommario/riassunto	A leading scientist argues that we must consider deploying climate engineering technology to slow the pace of global warming. "Climate engineering -- which could slow the pace of global warming by injecting reflective particles into the upper atmosphere -- has emerged in recent years as an extremely controversial technology. And for good reason: it carries unknown risks and it may undermine commitments to conserving energy. Some critics also view it as an immoral human breach of the natural world. The latter objection, David Keith argues in A Scientist's Case for Climate Engineering, is groundless; we have been using technology to alter our environment for years. But he agrees that there are large issues at stake."
