What is Left of US Leadership in the Americas?, Isabelle Vagnoux.
Sommario/riassunto	This book analyzes the transformations and consistencies of American leadership during the past few years and situates recent American foreign policy in a longer time frame, following the 2020 presidential election and after a full year of the Biden Administration. This longer

and broader view by European and American academics and experts considers both shifting American policies, notably during Trump's presidency, and underlying trends that have often gone ignored compared to the more dramatic antics of the 45th president. It helps decode recent American policy and permits us to consider possible new directions and likely continuities under Democratic leadership. Michael Stricof is Associate Professor of American Studies at Aix-Marseille University, France. Isabelle Vagnoux is Professor of U.S. History and Politics at Aix-Marseille University, France. .
