Sommario/riassunto	This book is the result of an objective analysis based on quantitative research of the situation of openness of government affairs in China in 2019. It consists of five parts: General Re-port, Systematic Advancement of Openness of Government Affairs, Systems Relating to Openness of Government Affairs, Openness of Government Affairs in Specific Fields and Giving Full Play to the Role of Openness of Government Affairs. This book contains a large amount of the latest

and most authoritative data collected by the author's team with high credibility. The rule of law index research framework used in this book was initiated by the author's team and has been continuously updated and improved. Through the evaluation of government transparency, it demonstrates the improvement of China's open government system and the steady progress of open decision-making, as well as the significant progress of open government services. It also provides scientific and objective feasibility advice and suggestions for enhancing the awareness of openness, accurately identifying public information needs, integrating openness into the whole process of government activities, and improving the level of information security.
