

1. Record Nr.	UNINA9910595046903321
Titolo	Sustainable fisheries and aquaculture : challenges and prospects for the blue bioeconomy // edited by Alexander Geraldovich Arkhipov
Pubbl/distr/stampa	Cham, Switzerland : , : Springer, , [2022] ©2022
ISBN	3-031-08284-2
Descrizione fisica	1 online resource (201 pages)
Collana	Environmental Science and Engineering
Disciplina	639.8
Soggetti	Sustainable aquaculture Sustainable fisheries
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Intro -- Introduction -- Contents -- Part I Aquaculture -- 1 Modern State and Prospects of Aquaculture Development in the Northwestern Caucasus -- 1.1 Introduction -- 1.2 Materials and Methods -- 1.3 Results -- 1.4 Discussion -- 1.5 Conclusion -- References -- 2 The Effect of Modern Probiotic Preparations on Enterosorbents on the Piscicultural and Microbiological Parameters of Sturgeon Fish -- 2.1 Introduction -- 2.2 Materials and Methods -- 2.3 Results -- 2.4 Discussion -- 2.5 Conclusion -- References -- 3 Pasture Fish Farming in the Reservoirs of the Volga-Kama Cascade as One of the Directions for the Implementation of the Blue Bioeconomy Concept -- 3.1 Introduction -- 3.2 Materials and Methods -- 3.3 Results -- 3.4 Discussion -- 3.5 Conclusion -- References -- Part II Ecology and Protection of Aquatic Ecosystems -- 4 Research Microplastics-Hydraulic Size of Microplastic Particles of Regular Shape and Their Distribution Over the Depth of the Watercourse -- 4.1 Introduction -- 4.2 Materials and Methods -- 4.2.1 Velocity of Particles MP Steady Deposition -- 4.2.2 The Distribution of Particles MP Over the Watercourse Depth -- 4.3 Results -- 4.4 Discussion -- 4.5 Conclusion -- References -- 5 Assessment of the Trophic Status of the Coastal Area of Lake Vistyitis (Kaliningrad Region) by Hydrochemical Parameters -- 5.1 Introduction -- 5.2 Materials and Methods -- 5.3 Results -- 5.4 Discussion -- 5.5 Conclusion --

References -- 6 Vistula Lagoon as Potential Object of Accumulated Environmental Harm -- 6.1 Introduction -- 6.1.1 Vistula Lagoon is Hot Spot No. 73 in the HELCOM List -- 6.2 Materials and Methods -- 6.3 Results -- 6.4 Discussion -- 6.5 Conclusion -- References -- 7 Invasive Species *Palaemon Elegans* Rathke, 1836, (Caridea: Palaemonidae) as the Only Species of Palemon Shrimps in Water Bodies of the Kaliningrad Region -- 7.1 Introduction. 7.2 Materials and Methods -- 7.3 Results -- 7.4 Discussion -- 7.5 Conclusion -- References -- 8 Influence of Water Quality in Urban Water Reservoirs of Kaliningrad on the State of Amateur Fishing -- 8.1 Introduction -- 8.2 Materials and Methods -- 8.3 Results -- 8.4 Discussions -- 8.5 Conclusion -- References -- Part III Fisheries Management -- 9 Prospects of Development of Small-Scale Fisheries of Vendace in Lake Vistytis, Kaliningrad Oblast, Russia -- 9.1 Introduction -- 9.2 Materials and Methods -- 9.3 Results -- 9.4 Conclusion -- References -- 10 Rational Use of Aquatic Biological Resources of the Atlantic Ocean for the Sustainable Economic Development of Russia -- 10.1 Introduction -- 10.2 Results and Discussion -- 10.3 Conclusion -- References -- 11 Problems of Arrangement on the Private Land Holdings of Ponds, That Have a Hydraulic Connection with Other Water Objects -- 11.1 Introduction -- 11.2 Materials and Methods -- 11.3 Results -- 11.4 Discussion -- 11.5 Conclusion -- References -- 12 Problems of Implementation of the Program for the Development of the Fisheries Industry of the Russian Federation -- 12.1 Introduction -- 12.2 Materials and Methods -- 12.3 Results -- 12.4 Discussion -- 12.5 Conclusion -- References -- 13 Natural and Artificial Reproduction of Sterlet in the Cheboksary Reservoir -- 13.1 Introduction -- 13.2 Materials and Methods -- 13.3 Results -- 13.3.1 Characterization of the Cheboksary Reservoir in Terms of the Potential for Natural Spawning of Sterlet, Revision of Spawning Grounds -- 13.3.2 Assessment of the Cheboksary Reservoir Sterlet Population State -- 13.3.3 Brief Description of the Biological Characteristics of the Cheboksary Reservoir Sterlet -- 13.3.4 The Comparison of Efficiency of the Sterlet Natural Spawning and the Results of Its Artificial Reproduction in the Cheboksary Reservoir -- 13.4 Discussion. 13.5 Conclusion -- References -- 14 Dynamics of Water Levels in the Gorky Reservoir (Russian Federation) During the Spawning Period and Its Influence on the Area of Spawning Grounds and Natural Reproduction of Limnophilic Fish Species -- 14.1 Introduction -- 14.2 Materials and Methods -- 14.3 Results -- 14.4 Discussion -- 14.5 Conclusion -- References -- 15 Fisheries and Aquaculture: Implementing Sustainable Development Goals -- 15.1 Introduction -- 15.2 Materials and Methods -- 15.3 Results -- 15.4 Discussion -- 15.5 Conclusion -- References -- Part IV Fishing -- 16 Structure of Catches and Dynamics of Fisheries in the Azov-Black Sea Basin Within Krasnodar Krai -- 16.1 Introduction -- 16.2 Materials and Methods -- 16.3 Results -- 16.4 Discussion -- 16.5 Conclusion -- References -- 17 Impact of Gidrometerological Conditions on Smelt Spawning Migration and Catch Fluctuations in the Rivers of Curonian Lagoon Basin -- 17.1 Introduction -- 17.2 Materials and Methods -- 17.3 Results -- 17.4 Conclusion -- References -- 18 Characteristics of the Ichthyocenosis in the Wintering Pits in the Context of the Zoogeographic Origin on the Example of Shallow Waters of the Volgograd Reservoir Basin -- 18.1 Introduction -- 18.2 Materials and Methods -- 18.3 Results -- 18.4 Discussion -- 18.5 Conclusion -- References -- 19 Ways of Penetration and Further Spread of White-Eye Bream (*Ballerus sapa*, Pallas, 1814) in Inland Water Bodies of Kaliningrad Oblast (Russia) --

19.1 Introduction -- 19.2 Materials and Methods -- 19.3 Results --  
19.4 Discussion -- 19.5 Conclusion -- References -- 20 Using the Gill  
Nets Survey for Assessment of Fish Stock and Allowable Catch  
in the Vistyis Lake, Kaliningrad Oblast, Russia -- 20.1 Introduction --  
20.2 Materials and Methods -- 20.3 Results -- 20.4 Discussion -- 20.5  
Conclusion -- References.
