Sommario/riassunto

This book constitutes the refereed proceedings of the 14th  
International Conference on Mathematics of Program Construction,  
MPC 2022, held in Tbilisi, Georgia, in September 2022. The 9 revised  
full papers presented together with three invited papers were carefully  
reviewed and selected from 14 submissions. The papers deal with  
mathematical principles and techniques for constructing computer  
programs.
