

1. Record Nr.	UNINA9910595456703321
Autore	Gao Wei
Titolo	Proceedings of the 1st International Workshop on Advances in Point Cloud Compression, Processing and Analysis // Wei Gao
Pubbl/distr/stampa	New York, NY, United States : , : Association for Computing Machinery, , 2022
Descrizione fisica	1 online resource (72 pages)
Collana	ACM Conferences
Disciplina	004
Soggetti	Computer science
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	<p>It is our great pleasure to welcome you to the 1st ACM International Workshop on Advances in Point Cloud Compression, Processing and Analysis (ACM APCCPA'22). The workshop is co-located with ACM Multimedia 2022. Researches on point clouds are attracting much attention from academia, industry and standardization organizations such as MPEG, JPEG, and AVS. 3D Point clouds consisting of thousands or even millions of points with attributes have excellent simulating and modeling capabilities for real world and scenes. There are several key technologies from point cloud data collection to specific applications, such as point cloud compression, processing and analysis. Point cloud compression makes processing and analysis more efficient and convenient. In addition, point cloud processing tasks (e.g., segmentation, classification, 3D object detection, registration) have achieved great success, which is owing to advanced compression techniques and mature analysis techniques.</p>
