

1. Record Nr.	UNINA9910597054003321
Titolo	Olfaction
Pubbl/distr/stampa	University Park, PA, USA : , : Marc Dingman, , [2019]
Descrizione fisica	1 online resource (1 video file (1 min., 59 sec.)) : sound, color
Collana	2-Minute Neuroscience Videos
Soggetti	Brain Neurosciences Senses and sensation Smell
Lingua di pubblicazione	Inglese
Formato	Videoregistrazione
Livello bibliografico	Monografia
Sommario/riassunto	Olfaction is another word for the sense of smell. In this video, I summarize the process of olfaction beginning with the olfactory receptors found in the olfactory epithelium. I follow the path of olfactory information until it reaches the olfactory cortex, where most olfactory processing in the brain occurs.
