Soggetti	Theater - England - History - 16th century
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Sommario/riassunto	This collection brings together major scholars to introduce, analyze and theorize the rich variety of entangled documents produced in the playhouse before, during and after performance. As it provides new material and new ways of thinking about that material, it informs and complicates ideas about play-construction, performance, revision and reception, redefining the relationship between play, text and performance.
