

1. Record Nr.	UNINA9910597158103321
Autore	Cassidy Tanya
Titolo	Banking on milk : an ethnography of donor human milk relations // Tanya Cassidy and Fiona Dykes, with Bernard Mahon
Pubbl/distr/stampa	Taylor & Francis, 2019 London : , : Routledge, , 2019
ISBN	0-203-71305-2 1-351-36410-3 1-351-36411-1
Edizione	[1st ed.]
Descrizione fisica	1 online resource (147 pages)
Collana	Routledge studies in the sociology of health and illness
Classificazione	MED058120SOC002010SOC057000
Disciplina	649.33
Soggetti	Breast milk - Collection and preservation Breastfeeding
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Introduction -- 1. Ethnography of exchanging human milk in the contemporary world -- 2. Moving hospital wetnurses to bureaus and banks -- 3. Building the science and society of human milk with banks / with Bernard P. Mahon -- 4. "It's not rocket science": practice and policy in human milk banking -- 5. Pumping for preemies -- 6. Building liquid bridges -- Endword / Tanya Cassidy.
Sommario/riassunto	Banking on Milk takes the reader on a journey through the everyday life of donor human milk banking across the United Kingdom (UK) and beyond, asking questions such as the following: Why do people decide to donate? How do parents of recipients hear about human milk? How does milk donation impact on lifestyle choices? Chapters record the practical everyday reality of work in a milk bank by drawing on extensive ethnographic observations and sensitive interview data from donors, mothers of recipients and the staff of four different milk banks from across the UK, and visits to milk banks across Europe and North America. It discusses the ongoing pressures to do with supply, demand and distribution. An empirically informed "ethnography of the contemporary", where both biosociality and biopower abound, this book includes an exploration of how milk banks evolved from

registering wet nurses with hospitals, showing how a regulatory culture of medical authority began to quantify and organize human milk as a commodity. This book is a valuable read for all those with an interest in breastfeeding or organ and tissue donation from a range of fields, including midwifery, sociology, anthropology, geography, cultural studies and public health.
