

1. Record Nr.	UNINA9910616365503321
Titolo	Illuminating human evolution : 150 years after Darwin // edited by Jaume Bertranpetit and Juli Pereto
Pubbl/distr/stampa	Singapore : , : Springer, , [2022] ©2022
ISBN	981-19-3246-8
Descrizione fisica	1 online resource (217 pages)
Collana	Evolutionary Studies
Disciplina	599.938
Soggetti	Human evolution
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Intro -- Preface -- Contents -- Chapter 1: Light Would Be Thrown: Human Evolution 150 Years After Darwin -- 1.1 Victorian in Form and Substance -- 1.2 Evolution Without Fossils -- 1.3 A Well-Connected Author -- 1.4 The Use of the Image (or Not) in Darwin's Work -- 1.5 Human Evolution Partially Enlightened -- 1.6 Translations of Descent into Spanish and Catalan -- References -- Chapter 2: The Historical Background to Darwin's Descent of Man -- 2.1 Introduction -- 2.2 The Descent of Man -- 2.3 Sexual Selection and Society -- 2.4 Descent in Victorian Context -- 2.5 Aftermath -- References -- Chapter 3: Ways of Seeing the World: Darwin and the First Victorian Generation -- References -- Chapter 4: The Problem of Design in the Darwinian Proposal: A Historical Overview -- 4.1 Introduction -- 4.2 The Design Argument -- 4.3 The Danger of Projecting Our Obsessions -- 4.4 Is It Really Over with Finalism? -- 4.5 Conclusion -- References -- Chapter 5: Darwin Under Suspicion: The Representation of Darwinism in the Newspaper ABC (1909-1982) -- 5.1 Introduction -- 5.2 Contextualization: A Brief History of Darwinism in Spain -- 5.3 Darwin in the ABC: 1909-1982 -- 5.4 Conclusions -- References -- Primary Bibliography -- Chapter 6: The Descent of Man: Darwin and Psychology -- 6.1 Introduction -- 6.2 Origin: From Species to Man -- 6.3 Acceptance of the Theory of Evolution and Its Impact on the Beginnings of Psychology -- 6.4 The Theory of Evolution and the Psychological Disciplines -- 6.5 Evolutionary Psychology: A New Theoretical Approach

-- 6.6 Darwin and Twenty-First Century Psychology -- References --
Chapter 7: Human Evolution: The Linguistic Evidence -- 7.1 Phylogeny
-- 7.2 Ontogeny -- 7.3 Glossogeny -- References -- Chapter 8:
Human Evolution in Eurasia: The Fossils that Darwin Did Not Know --
8.1 Introduction -- 8.2 Revisiting "Out of Africa 1".
8.2.1 "Out of Asia" and the Settlement of Europe -- 8.3 Revisiting
"Out of Africa 2" -- 8.4 Final Conclusion -- References -- Chapter
9: Human Evolution: The Genomic Evidence -- 9.1 The Family Tree of
Humankind -- 9.2 The Tangled Bank of Human Evolution -- 9.3 The
Faceless Human -- 9.4 Ghosts of the Past -- 9.5 Answers on Human
Evolution Inscribed in the Genome -- 9.5.1 The African Origin of the
Human Species -- 9.5.2 The Forgotten Diaspora: The Origins of the
Roma People -- 9.5.3 Europe's Prehistory Reconstructed from Ancient
DNA -- References -- Chapter 10: The Adaptations That Made Us
Human: Morphology -- 10.1 Introduction -- 10.1.1 The Concept of
Adaptation -- 10.1.2 The Relationship Between Form and Function --
10.1.3 Paleobiology -- 10.2 The Human Primates -- 10.2.1 Separating
the Wheat From the Chaff -- 10.2.2 Humans' Closest Relatives --
10.2.3 The Last Common Ancestor of Chimpanzees and Humans --
10.3 Main Adaptations of the Human Lineage -- 10.3.1 Locomotion --
10.3.2 Manipulation -- 10.3.3 Cognition and Life History -- 10.3.4 Diet
-- 10.3.5 Sociosexual Behavior -- 10.4 Discussion and Conclusions --
References -- Chapter 11: The Adaptations That Have Made Us Human:
The Genome -- 11.1 Introduction -- 11.2 Cross-Species Comparisons
-- 11.3 Tests Based on Intraspecific Variation -- 11.3.1 Tests Based on
Frequency Spectrum -- 11.3.2 Tests Based on Population
Differentiation -- 11.3.3 Tests Based on Unusual Haplotype Extension
or Linkage Disequilibrium -- 11.4 Verifying the Statistical Significance
-- 11.5 Beyond the Classic Selective Sweep -- 11.6 Limitations and
Future of Selection Studies -- References -- Chapter 12: How Do We
Humans Evolve? -- 12.1 Introduction -- 12.2 A Theoretical Approach
to a Central Hypothesis on Humanization -- 12.2.1 Production --
12.2.2 Communication -- 12.2.3 Socialization -- 12.3 Conclusion --
References.
Chapter 13: Art as a Human Element -- 13.1 Introduction -- 13.2
Darwin, Evolutionism, and the Origins of Prehistoric Art Research --
13.3 Current Debates -- References -- Chapter 14: Sexual Selection:
Following Darwin's Legacy -- 14.1 Introduction -- 14.2 Pre-copulatory
Mechanisms: Darwin's Jigsaw Puzzle -- 14.2.1 Intrasexual
Competition: Fighting for Mates -- 14.2.2 Intersexual Competition:
Mate Choice -- 14.3 Post-copula Mechanisms: The Invisible
Competition -- 14.3.1 Sperm Competition: Fighting for Fertilization --
14.3.2 Cryptic Female Choice -- 14.4 Sex Roles and the Evolutionary
Battle of the Sexes -- 14.5 The Importance of Sexual Selection in
Evolution -- 14.6 Conclusions -- References -- Chapter 15: Genetic
and Cultural Evolution of Mate Choice -- 15.1 Introduction -- 15.2
Mate-Choice Copying: Empirical Evidence -- 15.3 Mate-Choice
Copying: Theoretical Approaches -- 15.4 Mate-Choice Copying and
Speciation -- 15.5 Mate-Choice Copying in Humans -- 15.6 Mate-
Choice Copying: Asocial or Social Learning Mechanism? -- 15.7
Concluding Remarks -- References -- Chapter 16: How Past Shapes
Future: The Biological Future of Humankind -- 16.1 Background: If
There Has Been a Past, There Will Be a Future -- 16.2 Knowing the Past
to Predict the Future? -- 16.3 The Mechanisms of Evolution -- 16.3.1
The Mutation -- 16.3.2 Genetic Drift -- 16.3.3 Migration -- 16.3.4
Selective Mating -- 16.3.5 Natural Selection -- 16.4 The Biological
Effects of Human Culture -- 16.5 Natural Selection Today -- 16.5.1
Purifying Selection -- 16.5.2 Positive Selection -- 16.5.3 Sexual

Selection in Humans -- 16.6 Action of Genome Editing and
Transhumanism -- 16.7 What, Then, Is the Genetic and Evolutionary
Future of Humankind? -- References.
