## Sommario/riassunto

'Despite being in existence for over 20 years, the route to PhD is still  
 often poorly understood by individuals and institutions. This lively,  
 personal, informative, and affirming text will change that. Recognising  
 the value and expansion of the route to a PhD by publication, and the  
 current lack of published advice, Chong and Johnson have drawn  
 together accounts by supervisors, student and graduates of their  
 experiences of PhDs by publication, and what they learnt that will make  
 the journey easier for others. Containing advice about how to apply,

how to select publications, and how to prepare for the viva, it will be a valuable handbook for students and supervisors alike. Full of insights that will resonate with many research students and supervisors, and not only those involved in the 'by publication' route, it will help with tackling perennial barriers such as finding time to write, managing 'imposter syndrome;', and addressing the loneliness that many PhD student experience. An immensely useful, direct, profound and inspiring collection.' Professor Shân Wareing, Deputy Vice Chancellor, University of Northampton'.
