

1. Record Nr.	UNINA9910616389903321
Titolo	Atlas of nuclear medicine in musculoskeletal system : case oriented approach // edited by Seoung-Oh Yang [and three others]
Pubbl/distr/stampa	Gateway East, Singapore : , : Springer, , [2022] ©2022
ISBN	981-19-2677-8
Descrizione fisica	1 online resource (266 pages)
Disciplina	616.707548
Soggetti	Musculoskeletal system - Diseases - Diagnosis Musculoskeletal system Nuclear medicine
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Intro -- Preface -- Contents -- Contributors -- Part I: Inflammatory and Infectious Disorders -- 1: Musculoskeletal Infections -- 1.1 Diabetic Foot Infection -- 1.1.1 Clinical Course, Assessment, and Treatment -- 1.2 Chronic Prosthetic Joint Infection -- 1.2.1 Clinical Course, Assessment, and Treatment -- 1.3 Charcot Foot -- 1.3.1 Etiology and Clinical Significance -- 1.3.2 Radiographic Imaging -- 1.4 Malleolar Bursitis -- 1.4.1 Etiology and Clinical Significance -- 1.4.2 Radiographic Imaging -- 1.5 Pyogenic Spondylitis -- 1.5.1 Etiology and Clinical Significance -- 1.5.2 Radiographic Imaging -- 1.5.3 Differential Diagnosis with Pyogenic Spondylitis Versus Tuberculous Spondylitis -- References -- 2: Septic Arthritis -- 2.1 Etiology and Pathophysiology -- 2.2 Diagnosis -- 2.3 Tuberculous Arthritis -- References -- 3: Inflammatory Arthritis -- 3.1 Ankylosing Spondylitis -- 3.1.1 Etiology and Clinical Significance -- 3.1.2 Radiographic Imaging -- 3.2 Rheumatoid Arthritis -- 3.2.1 Etiology and Clinical Significance -- 3.2.2 Radiographic Imaging -- 3.3 Gout -- 3.3.1 Etiology and Clinical Significance -- 3.3.2 Radiographic Imaging -- References -- 4: Non-inflammatory Arthritis: Osteoarthritis -- 4.1 Etiology and Pathophysiology -- 4.2 Diagnosis -- References -- 5: Hypertrophic Osteoarthropathy -- 5.1 Etiology and Clinical Significance -- 5.2 Imaging -- References -- Part II: Traumatic and

Circulatory Disorders -- 6: Fracture, Non-union, and Bone Graft -- 6.1 Bone Fracture -- 6.1.1 Etiology and Clinical Significance -- 6.1.2 Imaging -- 6.2 Non-union -- 6.2.1 Etiology and Clinical Significance -- 6.2.2 Imaging -- 6.3 Bone Graft -- 6.3.1 Etiology and Clinical Significance -- 6.3.2 Imaging -- References -- 7: Stress Fractures and Sports Injury -- 7.1 Etiology and Pathophysiology -- 7.2 Diagnosis.
7.3 Bone Scan Findings of Specific Stress Fractures -- 7.3.1 Stress Fractures of the Tibia -- 7.3.2 Stress Fractures of the Foot and Ankle -- 7.3.3 Stress Fractures of the Femur -- 7.3.4 Stress Fractures of the Pelvis -- References -- 8: Osteonecrosis -- 8.1 Osteonecrosis of the Hip -- 8.1.1 Etiology and Clinical Significance -- 8.1.2 Imaging Findings -- 8.2 Osteonecrosis of Knee -- 8.2.1 Etiology and Clinical Significance -- 8.2.2 Imaging -- 8.3 Osteonecrosis of the Hand and Foot -- 8.3.1 Etiology and Clinical Significance -- 8.3.2 Imaging -- 8.4 Osteonecrosis of the Jaw -- 8.4.1 Etiology and Clinical Significance -- 8.4.2 Imaging -- References -- 9: Complex Regional Pain Syndrome -- 9.1 Etiology and Pathophysiology -- 9.2 Diagnosis -- 9.3 Three-Phase Bone Scintigraphy in the Diagnosis of CRPS -- References -- Part III: Spine and Joint Disorders -- 10: Spine -- 10.1 Evolution of Bone SPECT -- 10.2 Diagnosis of Spine Disease After Various Operations -- 10.3 Abnormalities in Fused Segments -- 10.4 Evaluation of Spondylolysis and Other Traumatic and Degenerative Changes -- References -- 11: Hip -- 11.1 Loosening in THA -- 11.2 Chronic Expanding Hematoma in THA -- 11.3 Periprosthetic Joint Infection in THA -- 11.4 Osteolysis in THA -- 11.5 Failure of Impacted Bone Graft in THA -- 11.6 Avascular Necrosis of Femoral Head After Internal Fixation of Femoral Neck Fractures -- 11.7 Fracture-Related Infection -- 11.8 Subchondral Insufficiency Fracture of Femur Head -- References -- 12: Knee Prostheses -- 12.1 Assessment of Knee Operations -- 12.2 Periprosthetic Infection -- 12.3 Aseptic Loosening -- 12.4 Polyethylene Wear -- 12.5 Periprosthetic Fracture -- 12.6 Metallosis -- 12.7 Instability -- References -- 13: Ankle and Shoulder -- 13.1 Ankle Osteoarthritis -- 13.1.1 Etiology and Clinical Significance. 13.1.2 Imaging -- 13.2 Osteochondral Lesion of the Talus -- 13.2.1 Etiology and Clinical Significance -- 13.2.2 Imaging -- 13.3 Anterior Ankle Impingement Syndrome -- 13.3.1 Imaging -- 13.4 Plantar Fasciitis -- 13.4.1 Etiology and Clinical Significance -- 13.4.2 Imaging -- 13.5 Accessory Ossicles -- 13.5.1 Etiology and Clinical Significance -- 13.5.2 Imaging -- 13.6 Mid-foot Sprain -- 13.6.1 Etiology and Clinical Significance -- 13.6.2 Imaging -- 13.7 Shoulder Dislocation -- 13.7.1 Etiology and Clinical Significance -- 13.7.2 Imaging -- 13.8 Rotator Cuff Tear -- 13.8.1 Etiology and Clinical Significance -- 13.8.2 Imaging -- References -- Part IV: Metabolic and Endocrine Osseous Disorders -- 14: Metabolic Bone Disease -- 14.1 Osteomalacia -- 14.1.1 Etiology and Clinical Significance -- 14.1.2 Imaging -- 14.2 Renal Osteodystrophy -- 14.2.1 Etiology and Clinical Significance -- 14.2.2 Imaging -- 14.3 Paget's Disease -- 14.3.1 Etiology and Clinical Significance -- 14.3.2 Imaging -- 14.4 Osteopetrosis -- 14.4.1 Etiology and Clinical Significance -- 14.4.2 Imaging -- 14.5 Camurati-Engelmann Disease -- 14.5.1 Etiology and Clinical Significance -- 14.5.2 Imaging -- References -- 15: Osteoporosis -- 15.1 Etiology and Pathophysiology -- 15.2 Diagnosis of Osteoporosis -- 15.3 Osteoporotic Vertebral Compression Fracture -- 15.4 Insufficiency Fractures of Pelvis and Sacrum -- 15.5 Atypical Femoral Fracture (AFF) -- 15.6 Medication-Related Osteonecrosis of the Jaw (MRONJ) -- References -- 16: Fibrous Dysplasia -- 16.1

Clinical Features and Pathophysiology -- 16.2 Radiologic Findings and Nuclear Medicine Imaging -- References -- Part V: Musculoskeletal Neoplastic Disorders -- 17: Primary Bone and Soft Tissue Tumors -- 17.1 Pathologic Classification -- 17.2 Diagnosis -- 17.3 Nuclear Imaging.

17.4 Image Findings of Common Primary Bone and Soft Tissue Tumors -- 17.4.1 Osteosarcoma -- 17.4.2 Chondrosarcoma -- 17.4.3 Liposarcoma -- 17.4.4 Giant Cell Tumor -- 17.4.5 Ewing Sarcoma -- 17.4.6 Fibrogenic and Fibroblastic Tumors -- 17.4.7 Langerhans Cell Histiocytosis -- 17.4.8 Other Tumors -- References -- 18: Metastatic Musculoskeletal Tumors -- 18.1 Etiology and Pathophysiology -- 18.2 Diagnosis -- References -- 19: Marrow Replacement Disorders -- 19.1 Plasma Cell Disorders (Multiple Myeloma) -- 19.1.1 Clinical Findings -- 19.1.2 Image Findings -- 19.2 Lymphoma and Leukemia -- 19.2.1 Clinical Findings -- 19.2.2 Image Findings -- References -- Part VI: Miscellaneous Features in Musculoskeletal Nuclear Imaging -- 20: Soft Tissue Uptake of Bone Scan Agents -- 20.1 Heterotopic Ossification -- 20.2 Soft Tissue Calcification -- 20.2.1 Dystrophic Calcification -- 20.2.2 Metastatic Calcification -- 20.3 Causes of Soft Tissue Uptake Other than Calcification -- 20.3.1 Rhabdomyolysis -- 20.3.2 Expansion of the Interstitial Fluid Compartment -- 20.3.3 Primary or Metastatic Tumor Uptake Associated with Tumor Hypervascularity -- 20.4 Artificial Uptake of Bone Scan Agents -- References -- 21: Musculoskeletal Nuclear Imaging Pitfalls -- 21.1 Instrument-Related -- 21.1.1 Improper Photopeak Window Setting -- 21.2 Technique-Related -- 21.2.1 Intra-arterial Injection -- 21.2.2 Injection into Central Venous Catheter -- 21.2.3 Tourniquet Effect -- 21.2.4 Extravasation of Radiopharmaceutical -- 21.2.5 Improper Preparation of Radiopharmaceuticals -- 21.3 Patient-Related -- 21.3.1 Influence of Recent Nuclear Medicine Study -- 21.3.2 Attenuation Artifact -- 21.3.3 Optimum Timing of Bone Scan After Trauma -- References -- Index.
