

1. Record Nr.	UNINA9910463984003321
Titolo	Operative arthroscopy
Pubbl/distr/stampa	Philadelphia : , : Wolters Kluwer Health/Lippincott Williams & Wilkins, , [2013] ©2013
ISBN	1-4511-5424-0 1-4698-7882-8
Edizione	[Fourth edition /]
Descrizione fisica	1 online resource (1114 p.)
Altri autori (Persone)	JohnsonDonald (Donald Hugh)
Disciplina	617.4/720597
Soggetti	Joints - Endoscopic surgery Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Rev. edition of: Operative arthroscopy / editor-in-chief, John B. McGinty. 3rd edition c2003.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	section I. The shoulder -- section II. The elbow -- section III. The wrist -- section IV. The hip -- section V. The knee -- section VI. Foot and ankle.
Sommario/riassunto	"Arthroscopy has become the major tool for orthopaedic surgeons fixing ligament problems in almost every anatomic joint in the human body. Chapter format to focus on how-to-do-it material The anatomic areas now covered are those that the sports medicine specialist will typically handle"--Provided by publisher.

Titolo	Agriculture, Environment and Sustainable Development : Experiences and Case Studies // edited by Rukhsana, Asraful Alam
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2022
ISBN	3-031-10406-4
Edizione	[1st ed. 2022.]
Descrizione fisica	1 online resource (279 pages)
Collana	Earth and Environmental Science Series
Disciplina	016.016 338.1
Soggetti	Environmental management Agriculture Sustainability Food security Environmental Management Food Security
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Part 1: Global warming and Climate Change: Vulnerability in Agricultural Sectors -- Chapter 1: Agriculture, Environment and Sustainable Development: An Overview -- Chapter 2: Economic Evaluation and Assessment of Modern Apple varieties in Kashmir valley (Ex-post) though Propensity Score Matching Methods -- Chapter 3: The Intensification of Shifting Cultivation in Tanzania: Effects on Soil and Vegetation -- Chapter 4: Impact of plant health on global food security: A holistic view -- Chapter 5: Crop Diversification as a Measure of Sustainable Agriculture and Production Growth -- Part 2: Water, Environment and Agriculture Sustainability -- Chapter 6: Spatiotemporal Analysis of built-up Area Expansion on Agricultural Land in Mousuni Island of Indian Sundarban -- Chapter 7: Levels of agriculture development and Crop Diversification: A District-wise panel data analysis in West Bengal -- Chapter 8: Engineering interventions to mitigate the agricultural waste in India -- Chapter 9: The study of red onion (<i>Allium cepa</i>) on growth and yield parameters in response to

plant spacing in Jaffna District, Sri Lanka -- Chapter 10: Soil Potential Erosion Risk Calculation Assessment Using Geospatial Technique in Keonjhar District, Odisha, India -- Part 3: Agriculture Sustainability and Sustainable Development and Environmental Management -- Chapter 11: Organic Farming Sector of India-- A Statistical Review and Recommendations -- Chapter 12: The Agrarian Vision: Sustainability and Environmental Ethics Via, Good Agricultural Practices (GAP) -- Chapter 13: Soil community composition and ecosystem processes -- Chapter 14: Household Access to Actual Food Intake and Fertility Level of Muslim population: A Study from Rural West Bengal -- Chapter 15: Livelihood, Food Security and Sustainability in Murshidabad District.

Sommario/riassunto

This volume is intended to provide a comprehensive understanding of recent innovations related to the study of agricultural and environmental management for sustainable development. The book clearly identifies why the fight to achieve sustainable development in agricultural production must be fought along a broad multidisciplinary front to overcome issues such as soil erosion, poor water quality, pesticide contamination, and food insecurity. Readers are given a broad exposition of the trends and current practices of basic principles on sustainable agriculture, along with a detailed understanding of the use of sustainable agriculture to develop environmentally sustainable food production systems. The chapters describe the ecological sustainability of agricultural systems, current innovations to improve efficiency in the use of resources for sustainable agriculture, and the proposal for technological options and new areas of research in this very significant field of agriculture. The authors aim to provide readers with a good subject understanding which will assist in the identification of agricultural development, environmental risk, sustainable resource management and design of appropriate responses. This book will be very helpful for students, researchers and practitioners interested in the fields of agriculture, environment and sustainable development.
