

1. Record Nr.	UNINA9910598991303321
Autore	Massimello, Giovanni
Titolo	Gli assi italiani della seconda guerra mondiale / Giovanni Massimello e Giorgio Apostolo ; illustrazioni di Richard Caruana
Pubbl/distr/stampa	Gorizia, : LEG, 2018
ISBN	978-88-6102-515-8
Descrizione fisica	177 p. : ill. ; 21 cm
Collana	Le guerre ; 94
Altri autori (Persone)	Apostolo, Giorgio
Disciplina	940.544945
Locazione	FSPBC
Collocazione	COLLEZ. 2110 (95)
Lingua di pubblicazione	Italiano
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Distribuito con i quotidiani Il Giorno, Il Resto del Carlino, La Nazione e Il Telegrafo

2. Record Nr.	UNISA996339092603316
Autore	Kirby Amanda
Titolo	Fast Facts : Specific Learning Difficulties / / Amanda Kirby, Bonnie J. Kaplan
Pubbl/distr/stampa	Basel, : S. Karger, 2003
ISBN	1-912776-05-7
Descrizione fisica	1 online resource (76 pages) : 27 figures
Soggetti	Psychiatry
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	<p>As more and more children present to family physicians with learning and attention problems, the overlap between the concerns of health and education professionals can become confused. Furthermore, dyslexia, developmental coordination disorder and attention deficit hyperactivity disorder often occur together, with each other and with oppositional defiant disorder, conduct disorder, Asperger's syndrome or obsessive-compulsive disorder. 'Fast Facts: Specific Learning Difficulties' is a practical guide for family physicians, specialist nurses and other healthcare professionals whose role it is to help and treat patients and their carers. It reviews five learning and behavioural problems addressing four questions for each:</p> <ul style="list-style-type: none"> <li>• What is the disorder, including its core symptoms and signs, what is its incidence and prevalence, and what is known about its cause?</li> <li>• What are the criteria for this disorder as specified by the Diagnostic and Statistical Manual of Mental Disorders 4th Edition?</li> <li>• Who assesses and diagnoses this disorder, and how?</li> <li>• What are the treatments for this disorder, and how?</li> <li>• What are the treatments for this disorder, including management at home and in school?</li> </ul> <p>This is an applied and practical guide which will clarify and enhance the role of the primary care physician in the treatment and management of these disorders.</p> <p>Contents:</p> <ul style="list-style-type: none"> <li>• General issues of diagnosis and treatment</li> <li>• Dyslexia (reading disability)</li> <li>• Developmental coordination disorder (dyspraxia)</li> <li>• Attention deficit hyperactivity disorder</li> <li>• Oppositional defiant</li> </ul>

Livello bibliografico	Monografia
Nota di contenuto	Chapter 1: The political dimension of water management in the face of climate change -- Chapter 2: A discursive institutionalist's approach to policy process in the tradition of historical institutionalism -- Chapter 3: The linkage between climate change adaptation and water -- Chapter 4: Climate change adaptation and water management in South Korea -- Chapter 5: Climate change adaptation and water management

**Sommario/riassunto**

"This book contributes significantly to the literature on comparative climate adaptation and shows how and why understandings of best approaches to water management are changing. It will be of interest to those concerned with the effects of climate change, evolving water management policies, and the ways in which water management is being viewed in major economies in Europe and in Asia. The book is an important and fascinating read." - Miranda A. Schreurs, Professor of Environment and Climate Politics, Technical University of Munich, Germany This book examines the approaches to climate change adaptation in water governance taken by South Korea and Germany. By comparing their political decision-making processes, this book explores the factors behind their differences. Adaptation to the changing climate is critical to human society and water is the principal medium through which climate change will affect us. Due to high levels of industrialization and population density, flood control is a high priority in both countries' adaptation plans. While South Korea has maintained its engineering-oriented flood control policy for river management, Germany has turned its direction from its long-standing technical approach to more nature-based solutions. The evidence of this study indicates that policy change and stability is the result of discourse and institutional interaction, and thus emphasizes the validity of discursive institutionalism. This book clearly explains why certain policies are adopted for water management and it will be an invaluable contribution to the expanding literature on the socio-political aspects of climate change adaptation. Yi hyun Kang is a postdoctoral researcher at the Université Saint-Louis – Bruxelles, Belgium. She earned her PhD at the Technical University of Munich, Germany with her dissertation on climate change adaptation policies of South Korea and Germany. Yi hyun's research interests focus on the decision-making process of environmental politics. These research interests developed from her professional work experiences in journalism, research, and international development sectors.
