

1. Record Nr.	UNINA9910619281703321
Autore	Mayevsky Avraham
Titolo	Cortical spreading depression of leao : from mitochondrial function to brain metabolic score (BMS) // Avraham Mayevsky and Judith Sonn
Pubbl/distr/stampa	Cham, Switzerland : , : Springer, , [2022] ©2022
ISBN	3-031-08068-8
Descrizione fisica	1 online resource (429 pages)
Disciplina	616.07
Soggetti	Mitochondrial pathology Brain - Metabolism - Disorders
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references (pages 411-417) and index.
Nota di contenuto	Intro -- Preface 1 -- Preface 2 -- Aim of the Book -- Acknowledgments -- I -- II -- Contents -- Chapter 1: Introduction and Historical Background -- 1.1 Leão' Cortical Spreading Depression (CSD) -- 1.1.1 Aristides Leão: Life History -- 1.1.2 The Discovery of the "Spreading Depression" -- 1.1.3 Back to Brazil -- 1.1.4 Conclusion -- 1.1.5 Aristides Leão: The Four Seminal Publications (1944-1947) -- 1.2 Oxygen Homeostasis in the Brain -- 1.2.1 The Discovery of Oxygen -- 1.2.2 The Discovery of the Mitochondrial Function -- 1.3 Monitoring of Brain Mitochondrial Function in Vivo -- 1.4 Brain Energy Metabolism and Mitochondrial Function During CSD -- References -- Chapter 2: Basic Principles and Technology of NADH and Multiparametric Monitoring Used in Studying Cortical Spreading Depression (CSD) -- 2.1 Introduction -- 2.2 From NADH Monitoring to Multiparametric Monitoring Systems -- 2.2.1 Fiber-Optic-Based Fluorometer/Reflectometer -- 2.2.2 Simultaneous Monitoring of NADH by DC Fluorometer Reflectometer Together with Monitoring of Systemic Blood Pressure and Electrocortical Activity (ECoG) -- 2.2.3 Simultaneous Monitoring of NADH Together with Extracellular K <sup>+</sup> , DC Steady Potential, and ECoG -- 2.2.4 Monitoring of Brain NADH Together with Tissue pO <sub>2</sub> and ECoG -- 2.2.5 Multiparametric Assembly for Recording of NADH, Extracellular K <sup>+</sup> , H <sup>+</sup> , DC Steady Potential, and ECoG -- 2.2.5.1 Electrode Assembly -- 2.2.5.2 Correction for Local

DC Biopotential -- 2.2.5.3 NADH Fluorescence Measurement -- 2.2.6 Monitoring of NADH, pO<sub>2</sub>, Extracellular K<sup>+</sup>, DC, and ECoG, Outside and Inside Hyperbaric Chamber -- 2.2.7 Simultaneous Real-Time Monitoring of Brain NADH, HbO<sub>2</sub>, ECoG, DC Potential, and Extracellular K<sup>+</sup> and Ca<sup>2+</sup> -- 2.2.8 Simultaneous Real-Time Monitoring of Brain NADH, CBF, ECoG, DC Potential, and Extracellular K<sup>+</sup> and Ca<sup>2+</sup>. 2.2.9 Simultaneous Monitoring of Brain NADH, CBF, ECoG, DC Potential, and Extracellular K<sup>+</sup>, Ca<sup>2+</sup>, H<sup>+</sup> -- 2.2.10 Multiparametric Monitoring of Neurosurgical Patients -- 2.2.11 Monitoring of the Mechanism of CSD Propagation -- 2.2.12 Multisite Monitoring of NADH and DC Potential in Rats Under Various Conditions -- 2.2.13 Multisite Multiparametric Monitoring of NADH, CBF, and DC Potential in Rats Under Experimental Conditions -- References -- Chapter 3: Single Point and Multisite Monitoring of Brain NADH Fluorescence Under CSD -- 3.1 Introduction -- 3.2 Single Point Monitoring of NADH -- 3.3 Two Points Monitoring of NADH -- 3.4 Four Points Monitoring of NADH -- References -- Chapter 4: Sequence of Physiological Responses Recorded During Induced CSD Event -- 4.1 Introduction -- 4.2 Effects of CSD on Cerebral Blood Flow and Brain Oxygen Consumption -- 4.2.1 Introduction -- 4.2.2 Methods -- 4.2.3 Results -- 4.2.4 Discussion -- 4.3 Sequence of Events Recorded During the CSD Cycle -- 4.3.1 The Use of the MPA System -- 4.3.2 CSD Initiation and Contralateral Responses -- 4.3.3 Discussion -- References -- Chapter 5: Spontaneous Development of CSD Related to Brain Pathophysiological Conditions -- 5.1 Introduction -- 5.2 During Anoxia, Hypoxia, and Ischemia -- 5.3 During Exposure to Hyperbaric Hyperoxia (HBO) -- 5.3.1 First Study-HBO Effects on Mitochondrial Function -- 5.3.1.1 Introduction -- 5.3.1.2 Methodology -- 5.3.1.3 Results -- 5.3.1.4 Discussion -- 5.3.2 Second Study-Protection Against Oxygen Toxicity by Trimethadione -- 5.3.3 Third Study-Effects of CO<sub>2</sub> Under HBO -- 5.3.4 More Factors Affecting HBO Toxicity -- 5.3.5 Fifth Study-Multiparametric Monitoring of CSD Under HBO -- 5.3.5.1 Introduction -- 5.3.5.2 Methods -- 5.3.5.3 Results -- 5.3.5.4 Discussion -- 5.4 During Drug-Induced Seizure Activity -- 5.5 Development of CSD During and After Head Injury. 5.5.1 First Study-Development of the TBI Model -- 5.5.1.1 Introduction -- 5.5.1.2 Technological Aspects -- 5.5.1.3 Results -- 5.5.1.4 Discussion -- 5.5.2 Second Study-Level of ICP and CSD After TBI -- 5.5.2.1 Introduction -- 5.5.2.2 Methods -- 5.5.2.3 Results -- 5.5.2.4 Discussion -- References -- Untitled -- Chapter 6: The Effects of Brain Metabolic and Other Perturbations on the Responses to Induced CSD -- 6.1 Effects of Oxygen Availability -- 6.1.1 Introduction -- 6.1.2 Effects of Hypoxia and Hyperoxia on the Responses to CSD -- 6.1.3 Responses to CSD Under Ischemia -- 6.1.4 Responses to CSD Under Partial Ischemia-Statistical Analysis -- 6.2 Effect of Anesthesia on the Responses to CSD -- 6.3 Effects of Hypothermia on the Responses to CSD -- 6.3.1 Introduction -- 6.3.2 Our Studies -- 6.4 Responses to CSD in the Aging Rat -- References -- Chapter 7: Effects of Pharmacological Agents on CSD -- 7.1 Effects of Carbon Monoxide -- 7.1.1 First Study -- 7.1.1.1 Introduction -- 7.1.1.2 Methods -- 7.1.1.3 Results and Discussion -- 7.1.2 Second Study -- 7.1.2.1 Introduction -- 7.1.2.2 Methods -- 7.1.2.2.1 Data Collection and Analysis -- 7.1.2.3 Results -- 7.1.2.4 Discussion -- 7.1.3 Third Study -- 7.1.3.1 Introduction -- 7.1.3.2 Methods -- 7.1.3.3 Results -- 7.1.3.4 Discussion -- 7.1.4 Fourth Study -- 7.1.4.1 Introduction -- 7.1.4.2 Methods -- 7.1.4.3 Results -- 7.1.4.4 Discussion -- 7.2 Nitric Oxide -- 7.2.1 First Study -- 7.2.1.1 Introduction -- 7.2.1.2 Methods -- 7.2.1.3 Results -- 7.2.1.4 Discussion -- 7.2.2 Second Study:

The Effect of CSD Under Nitric Oxide (NO) Synthase Inhibition --  
7.2.2.1 Introduction -- 7.2.2.2 Methods -- 7.2.2.3 Results -- 7.2.2.3.1  
The Variation of the Measured Parameters in the Control Study --  
7.2.2.3.2 Results: The Effect of L-NAME Injection on the Measured  
Parameters.  
7.2.2.3.3 Results: The Effect of CSD Waves on the Measured Parameters  
-- 7.2.2.3.4 Results: CSD Amplitudes -- 7.2.2.3.5 Results: CSD Wave  
Duration -- 7.2.2.3.6 Results: Recovery from CSD Wave -- 7.2.2.4  
Summary -- 7.3 Alcohol Effects -- 7.3.1 First Study -- 7.3.2 Second  
Study: The Effects of Ethanol on the Responses to CSD -- 7.3.2.1  
Introduction -- 7.3.2.2 Methods -- 7.3.2.3 Results -- 7.3.2.3.1  
Amplitude Values -- 7.3.2.3.2 Wave Frequency (FRQ) -- 7.3.2.3.3  
Propagation Rate: VTP (Mm/Min) -- 7.3.2.4 Discussion -- 7.3.2.4.1  
Reflectance -- 7.3.2.4.2 NADH Redox State -- 7.3.2.4.3 DC Potential  
-- 7.3.2.4.4 CSD Wave Frequency and Propagation Rate -- References  
-- Chapter 8: Clinical Monitoring of Cortical Spreading Depression  
(CSD) in the Human Brain -- 8.1 Introduction -- 8.2 Monitoring  
of NADH and Other Parameters in Patients -- 8.3 The Discovery of CSD  
in the Human Cerebral Cortex -- 8.3.1 Introduction -- 8.3.2 Methods  
-- 8.3.2.1 The Development of the Monitoring System -- 8.3.2.2  
Construction of the Multiprobe Assembly (MPA) -- 8.3.2.3 Patient  
Preparation -- 8.3.3 Results -- 8.3.4 Discussion -- References --  
Chapter 9: CSD and the LifenLight Score (LLS) -- 9.1 Introduction --  
9.1.1 The Developed Concept -- 9.1.2 Brain LifenLight Score (LLS) --  
9.2 Methodology Used -- 9.2.1 The Multiparametric Monitoring System  
-- 9.2.2 Time Sharing Fluorometer Reflectometer (TSFR) -- 9.2.3  
Mitochondrial NADH Redox State (NADH) -- 9.2.4 Microcirculatory  
Blood Oxygenation -- 9.2.5 Microcirculatory Blood Flow -- 9.2.6  
Animal Preparation -- 9.2.7 Real-Time Data Acquisition -- 9.2.8  
LifenLight Score (LLS) -- 9.3 Results -- 9.4 Discussion -- References --  
Chapter 10: Discussion and Conclusions -- 10.1 Introduction -- 10.2  
The Discovery of CSD in the Human Cerebral Cortex -- 10.3 NADH  
Responses to CSD In Vivo vs. Isolated Mitochondria In Vitro.  
10.4 Cortical Spreading Depression (CSD) under Pathophysiological  
Conditions -- 10.5 Modeling Brain Energy Metabolism and Function --  
10.5.1 Introduction -- 10.5.2 The Mathematical Model -- 10.5.3  
Results -- 10.5.4 Model Discussion -- 10.6 Future Perspectives --  
References -- Appendix -- Introduction -- Chapter 1: Electrical  
Properties of Spreading Depression -- Spontaneous  
Electroencephalographic Activity -- Evoked Potentials -- Slow  
Potentials -- Unit Activity -- Membrane Potentials -- Impedance  
Changes -- Chapter 5: Chemical Aspects of Spreading Depression --  
Ion and Water Transport and Distribution During Spreading Depression  
-- Spreading Cortical Depression and Labile Chemical Compounds  
in the Brain -- Amino Acids and Spreading Depression -- Biochemical  
Correlates of the Functional Changes Accompanying Spreading  
Depression -- Protein Metabolism in the Course of Spreading  
Depression -- Chapter 7: Mechanism of Spreading Depression --  
Vascular Mechanisms -- Electric Fields -- Humoral Transmission --  
Potassium Hypothesis -- Glutamic Acid Hypothesis -- Concomitant  
Phenomena -- References -- Index.
